

A Guide to Prefinished Doors & Millwork

Factory-applied finishing (commonly known as “pre-finishing”) is a staple of Next Edge Doors from Mid-Am. With over 15 years of experience in the pre-finish market, we offer best-in class staining and painting in a wide variety of options, including custom color matching. Ready to hang upon delivery, our doors reduce the costs, and more importantly, the headaches associated with pre-finishing in place.

FOR OVER 50 YEARS MID-AM HAS BUILT A REPUTATION ON BEST-IN-CLASS SERVICE AND RELIABILITY ... AND OUR NEXT EDGE™ DOORS ARE BUILT ON THAT FOUNDATION.

RELAX—LET OUR PROFESSIONALS DO THE WORK FOR YOU.

Why?

- Our state of the art equipment provides a consistently beautiful finish
- Your doors are finished in a clean environment to ensure quality
- Stained doors are finished by hand to give an authentic wood look
- Entire door finish is 100% environmentally friendly
- Elegant and durable finish exceeds manufacturers' expectations

Limited only by your imagination

Interior Paint

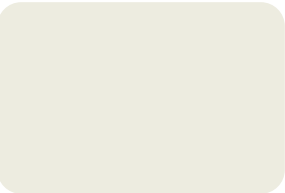

- Our Doors are prepped and inspected to remove blemishes
- Each door is painted with 2 coats of durable water base paint
- Selection of Alynna White doors and moulding in stock
- Choose from 8 standard colors
- Custom color match available

***The door, wainscoting, casing, base are all prefinished items.**

Paint Swatches

Alabaster

Kendall Charcoal

Dorian Gray

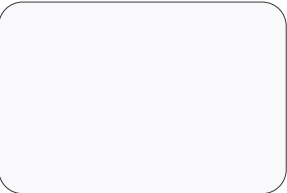

Tin Lizzie

Accessible Beige

Wrought Iron

Alaynna White

Tricorn Black

* Actual colors will vary.

*Every piece of wood is unique. Color appearance is affected by many variables, including: species, hue, wood-tone, grain and lighting source (incandescent, fluorescent or sunlight).

Interior Stain Options

Details Matter – That’s why every door we craft goes through a rigorous hand sanding and hand staining process and are personally inspected by one of our team members. We pay attention to the little things ... so you don’t have to.

Finish

Stain is hand wiped for a deep, rich finish

Topcoat

- Our topcoat is an innovative water based polymer, providing:
 - Exceptional clarity
 - Yellowing resistance
 - Durability

Consistently outperforming both competitive solvent and water base products

Doors are hand sanded for a smooth, even finish

Innovative multistep process provides depth and color clarity without hiding woods natural colors

Furniture grade topcoat is used for enhanced durability

Stain is applied by hand for a deep, rich finish

Choose from our beautiful stock colors or provide a sample and we will blend a custom color to complement your home’s aesthetic.

*Every piece of wood is unique. Color appearance is affected by many variables, including: species, hue, wood-tone, grain and lighting source (incandescent, fluorescent or sunlight).

Exterior Door Prefinish Options

The entrance to your home starts with your exterior door. Achieve the welcome you desire with Mid Am’s exterior fiberglass doors. Choose from our stock offering which includes woodgrain or smooth finishes for the fiberglass offering, or select a more custom entrance with a special order door.

If you are looking for a wood door look for your exterior entrance, then our fiberglass offering with the woodgrain finish is your solution. We apply a UV resistant clear stain polyurethane for added beauty and protection for your door. Choose from our standard stains.

Standard Stain Swatches

* Actual colors will vary.

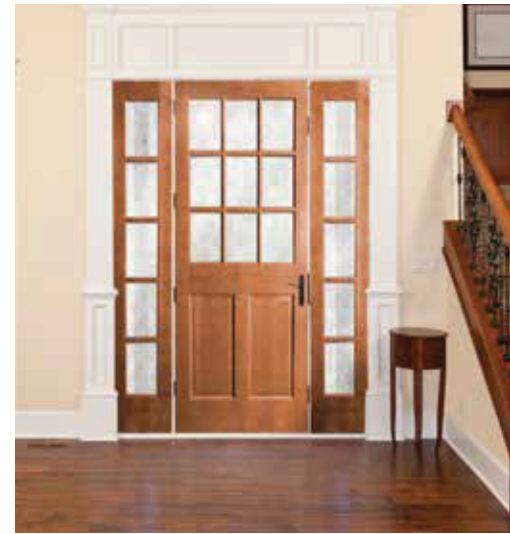

► For color options, choose from our standard paint colors or provide a sample that we can use to create a custom color to coordinate with your home’s exterior.
