THE GREATER WOODLAND PARK CHAMBER OF COMMERCE

# Great Local Campgrounds

## Camping Above the Clouds

The Woodland Park area has plenty to offer when it comes to mountain camping—everything from high quality camp sites that include hot showers and RV hookups to sites that embody the true meaning of “roughing it”.

The U.S. Forest Service maintains many of the region’s public campgrounds in Pike National Forest. Fees will vary for each site, as do amenities offered.

Reservations are recommended for most of the area’s campgrounds. It is suggested that campers contact area forestry and parks officials for up to date information regarding access and current burn restrictions.

### Basic Campfire Safety Tips

### Recommended by US Forest Service

- ♦ Build campfires away from overhanging branches
- ♦ Pile any extra wood away from the fire
- ♦ Keep plenty of water on hand
- ♦ Keep the campfire small
- ♦ Remove any burnable material within a 10 foot diameter circle
- ♦ **Never** leave a campfire unattended
- ♦ Drown the fire with water—burning embers may still be underneath rocks
- ♦ Stir the remains, add more water and stir again
- ♦ If you do not have water, use dirt, stir until cool to touch
- ♦ Do not bury coals as they can smolder and break out
- ♦ Be sure fire is “dead out” - do not let your carelessness add to the cause of a devastating wildfire

Always check with the local Forest Service  
719.636.1602 for any regional fire  
restrictions in effect.

- \* Wonderful view of Pikes Peak in a forest-like setting call for rates
- \* 39 RV sites \* Free Wi-Fi internet access

# Respect Wildlife

- \* Observe wildlife from a distance—Do not follow or approach them
- \* Never feed wildlife—it damages their health and alters natural behaviors
- \* Protect wildlife by storing food and trash securely

- \* Control pets or leave them at home
- \* Avoid wildlife during sensitive times—mating, nesting or when food is scarce
- \* Treat all wildlife and plants around you with care
- \* Leave your campsite in as natural a state as possible—pack out your trash!
- \* Let nature's sounds prevail

## Bear Facts on Bear Encounters

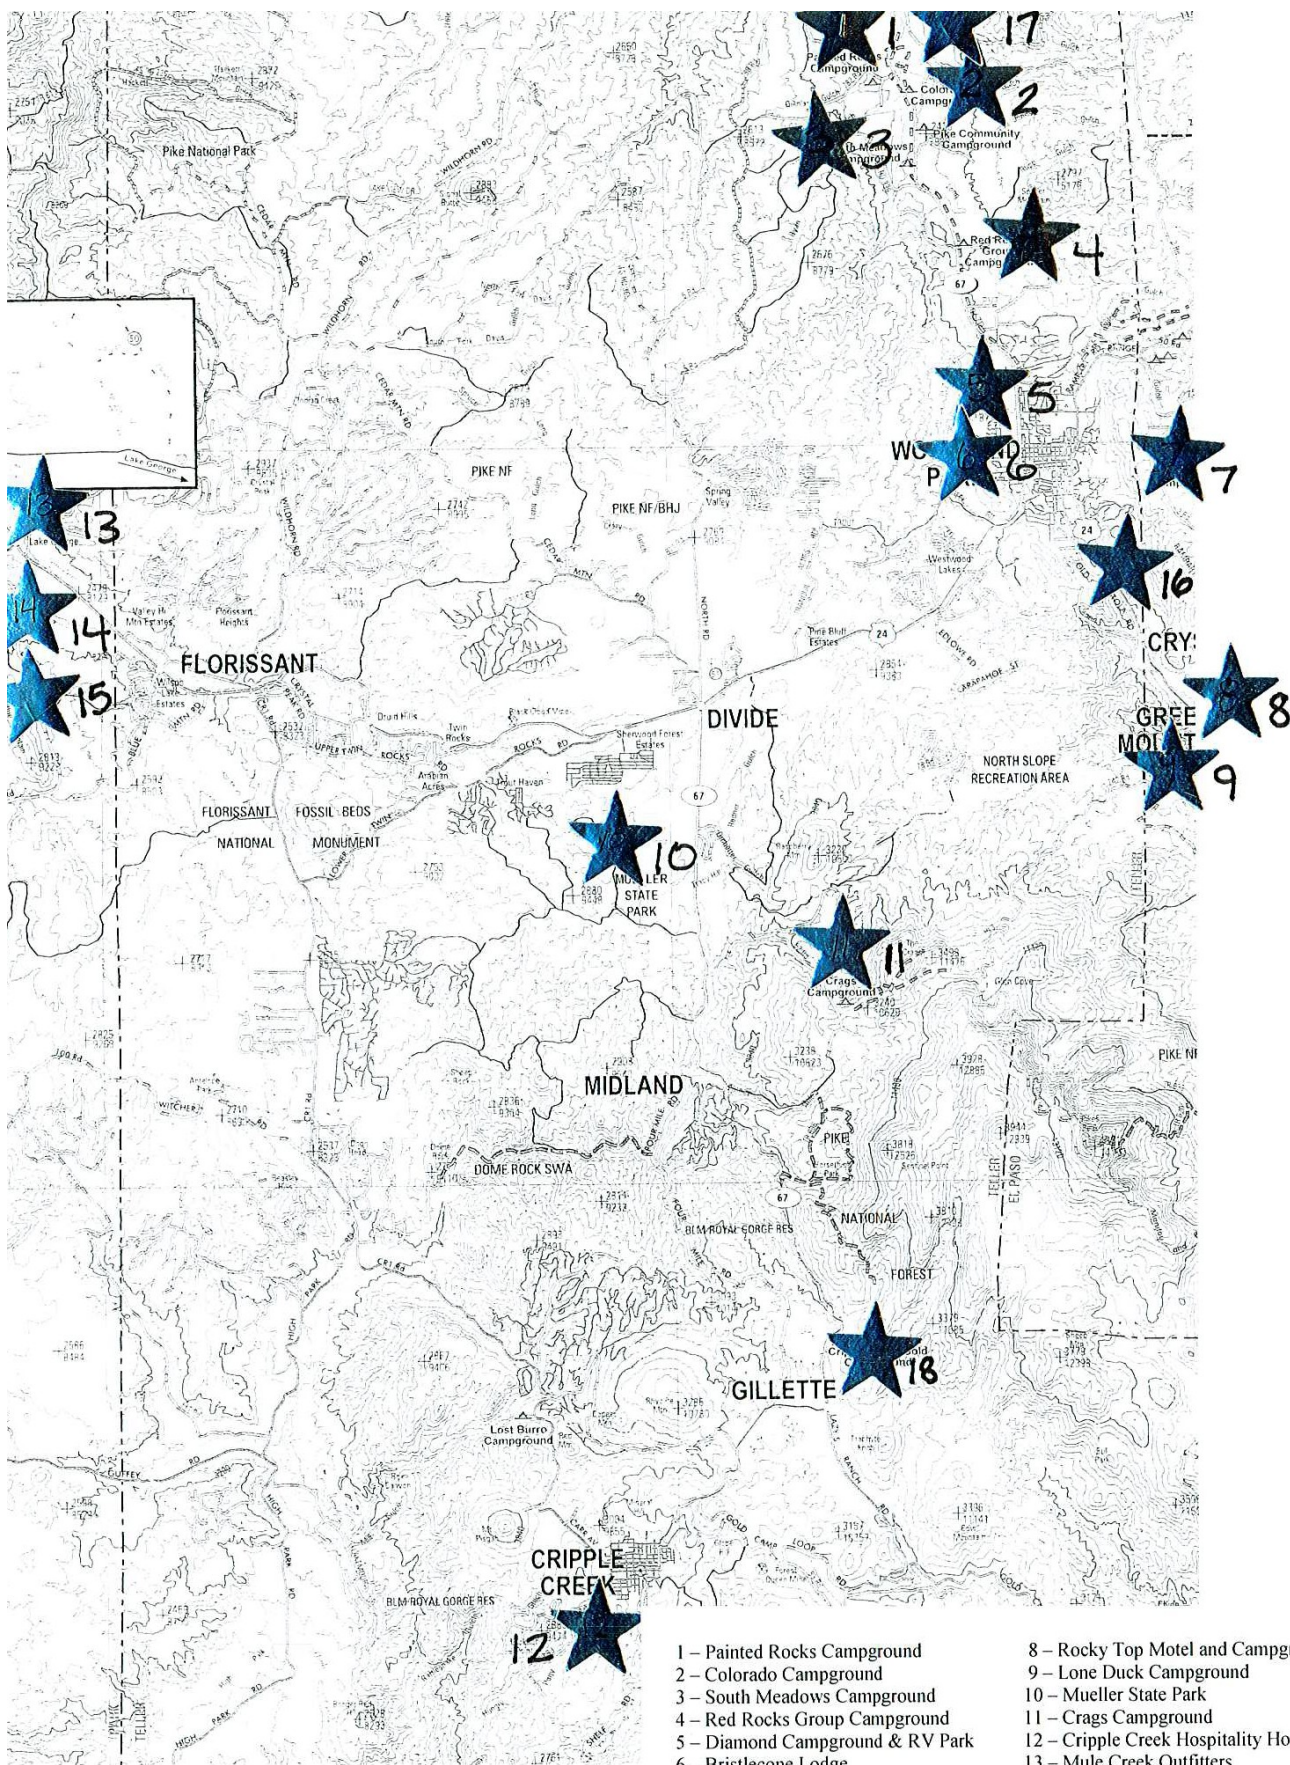

- \* Never approach a bear of any size
  - \* Remain calm—black bears usually do not attack humans
  - \* If you are near a bear back away slowly and leave if you have not been spotted
  - \* If a bear visits your campsite, try to scare it away by banging pans together for lots of noise—if this does not work—leave immediately
  - \* Don't be alarmed if a bear stands up on its hind legs. It is probably trying to get a better look or smell of you. This is not necessarily aggressive behavior.
- \* If attacked, experts suggest stand your ground. Do not run. Avoid eye contact. Try dropping an article of clothing to distract him. If this does not work, play dead, face down in the fetal position. After a minute if he is still around, fight back by punching or kicking him in the eye or nose area.
  - \* Remember to store all food away at night and during the day if you will be away from the site. The trunk of your car is ideal.
  - \* Do not store food in your tent and it is ideal to change your clothes after cooking a meal before retiring for the night.

## Smokey Bear Says...

Please be careful with  
Matches  
Cigarettes  
and  
Campfires.  
Only you can prevent forest fires!

- 1 – Painted Rocks Campground
- 2 – Colorado Campground

# BUY IT WHERE YOU BURN IT!

## DON'T TRANSPORT FIREWOOD

100 million elm  
killed by Dutch elm  
disease

Millions of  
hardwoods killed by  
gypsy moth

Over 50 million ash  
killed by emerald  
ash borer

Millions of pines  
threatened by  
European wood wasp

**Transporting firewood can spread  
insects and diseases that  
KILL TREES.**

**It is unlawful to transport pests\***

**Please...buy firewood  
where you camp.**

**If you have firewood from out of state, please  
BURN IT IMMEDIATELY.  
Our forests thank you!**
