SKIN SOLUTIONS®

Where Science Meets Skin Care

The new generation of HA Fillers

Prodefine Collection of aesthetic treatments is the precise formula for skin transformation using the innovative cross-linked hyaluronic acid technology that gives instant and long-lasting results.

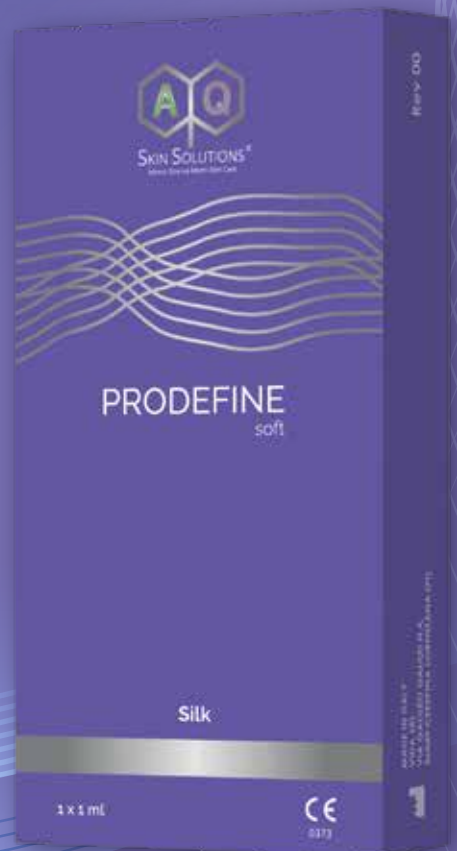

Prodefine fillers are sterile medical devices, injectable, non-pyrogenic, absorbable, based on cross-linked hyaluronic acid derived from bacterial fermentation. The crosslinking of Hyaluronic Acid inside the product makes the filler effect more stable. Our fillers, thanks to the different concentrations of Hyaluronic Acid put inside in each product, guarantee achievement of more goals depending on each patient needs.

Prodefine Soft (Silk)

Experience the power of Prodefine Soft, a cutting-edge hyaluronic acid composition meticulously designed to address fine to medium wrinkles. Specially formulated to target the notorious smile lines, this innovative solution is exceptionally adept at resolving skin concerns typically encountered by individuals with medium-young skin.

The Concentration of Hyaluronic Acid 20 Mg/ML

With Prodefine Soft, achieving smoother, more youthful-looking skin has never been easier. Our advanced formulation combines the benefits of cross-linking technology with the inherent properties of hyaluronic acid, resulting in a highly effective solution for wrinkle correction.

To ensure precise and comfortable application, Prodefine Retouch has **30G needle**, it helps achieve optimal control and minimal discomfort during the treatment process.

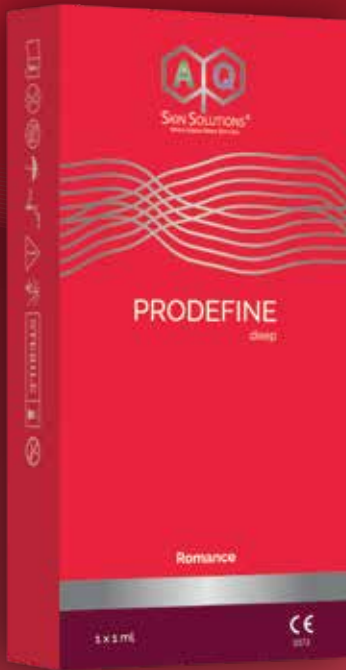

Prodefine Soft provides you the solution you need to confidently combat the signs of aging. Unlock the secret to revitalized, radiant skin today.

Treatment area:

- laugh lines
- barcodes wrinkles
- periocular wrinkles
- scar sequelae (acne, chicken pox)

Prodefine Deep (Romance)

Discover the power of Prodefine Deep (Romance), a premium dermal filler specifically designed to address medium deep wrinkles.

The Concentration of Hyaluronic Acid 24 Mg/ML

This exceptional product, known for its remarkable strength, features a highly concentrated hyaluronic acid composition that effectively targets the concerns commonly associated with mature skin.

In particular, it focuses on revitalizing the areas that accentuate your beautiful smile.

Prodefine Deep (Romance) is your key to restoring youthfulness and rejuvenation. With its potent formulation, crafted with meticulous attention to detail, it delivers exceptional results for mature skin. The concentrated hyaluronic acid formulation works harmoniously to diminish the appearance of wrinkles, providing you with a renewed and refreshed complexion.

For optimal precession and comfort during treatment Prodefine Deep has **27G needle**. This ensures accurate application, allowing you to experience the transformative effects of Prodefine Deep (Romance) with minimal discomfort.

Treatment area:

- naso-genal furrows
- marionette wrinkles
- mandibular edge
- deep wrinkles
- lips large volumes
- deep furrows

Prodefine Ultra Deep (Melody)

The pinnacle of advanced aesthetics with Prodefine Ultra Deep, an extraordinary dermal filler meticulously engineered to address deep wrinkles and pronounced signs of aging. Crafted with an exceptionally concentrated percentage of hyaluronic acid, this innovative product is specifically tailored to effectively combat the unique challenges encountered by mature skin.

The Concentration of Hyaluronic Acid 26 Mg/ML

Prodefine Ultra Deep stands as a beacon of technological excellence in the realm of fillers. Leveraging our groundbreaking "Melody" technology, this smart filler sets a new industry benchmark by delivering unparalleled safety and performance among hyaluronic acid fillers. Through this visionary approach, hyaluronic acid undergoes cross-linking using a precisely choreographed rhythmic pattern, closely mirroring the natural formation of hyaluronic acid chains in the skin tissue.

This groundbreaking formula ensures an unmatched level of safety, longevity, and optimal performance, elevating it above its counterparts in the market.

For optimal precession and comfort during treatment Prodefine Ultra Deep has **25G needle**. This empowers practitioners with the ability to administer precise doses, enabling patients to derive maximum benefits from Prodefine Ultra Deep (Melody) while minimizing any discomfort.

Treatment area:

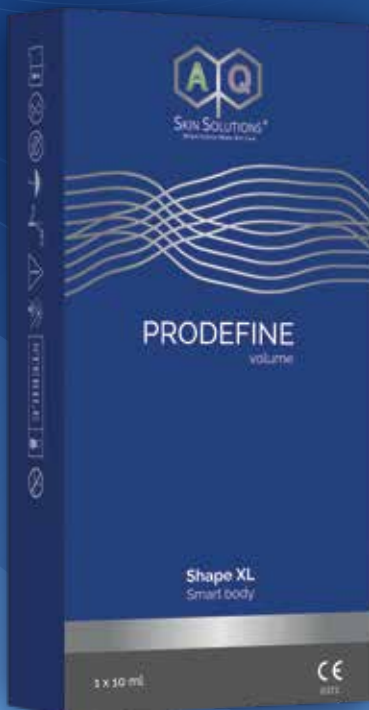

- cheekbones
- malar area
- chin
- deep furrows
- facial lipoatrophy

Prodefine Volume (Shape XL)

Introducing Prodefine Volume (Shape XL): The Advanced Body Filler for Extensive Volume Correction and Skin Blemishes

Step into a new era of aesthetic excellence with Prodefine Volume, a remarkable body filler meticulously crafted to address extensive skin blemishes that require substantial volume correction. With an equivalent concentration of hyaluronic acid as Prodefine Volume, this exceptional product is specifically formulated to cater to the unique demands of body contouring and larger-scale correction needs.

The Concentration of Hyaluronic Acid 20 Mg/ML

Prodefine Volume represents a groundbreaking leap in filler technology, empowering practitioners to achieve precise and remarkable results in body aesthetics. Designed with a generous **10 ml** format, **18G needle**, this body filler is particularly well-suited for correcting extensive concerns that affect larger volumes, delivering transformative outcomes.

The transformative power of Prodefine Volume as it rejuvenates and refines the body, addressing larger-scale imperfections with exceptional precision and artistry. Embrace the confidence that comes with a flawlessly sculpted appearance and redefine the boundaries of aesthetic perfection with Prodefine Volume, the ultimate body filler for extensive volume correction and skin blemishes.

Treatment area:

- glutes
- calfs
- body depression

Prodefine Retouch (C-Link)

Prodefine Retouch (C-Link): The Advanced Cross-Linked Filler for Immediate Results and Minor Facial Skin Corrections.

Prodefine Retouch, a remarkable filler designed to meet the specific needs of individuals seeking immediate but less enduring results with an exclusive pre-treatment mask with 10 point of injections that will hydrate your skin for the best result.

The Concentration of Hyaluronic Acid 20 Mg/ML

Prodefine Retouch stands as a testament to cutting-edge bio-resorbable properties, making it an ideal choice for those seeking a temporary correction with natural bio-absorption over time. This special formulation ensures a balance between immediate results and gradual resorption, offering patients a tailored experience to meet their desired outcome.

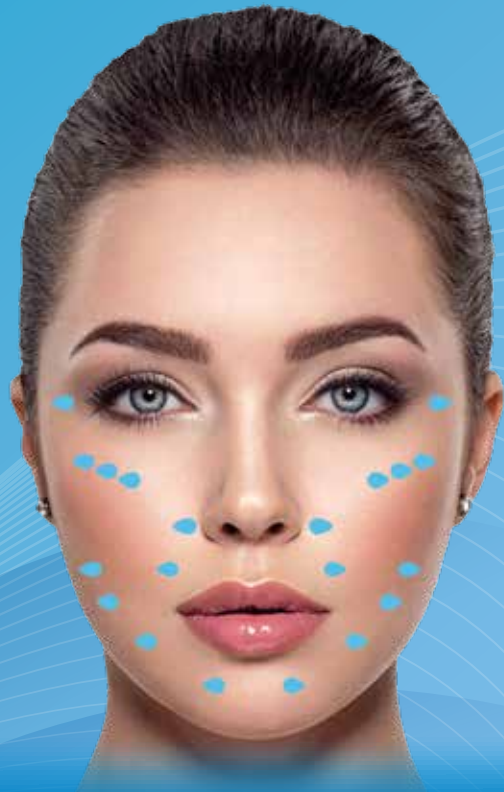

For optimal precession and comfort during treatment Prodefine Retouch has **30G needle**. Experience the transformative power of Prodefine Retouch as it delicately corrects minor facial skin depressions, delivering immediate results while allowing for natural bio-resorption over time.

Prodefine Retouch, the leading Skin Booster on the market, designed with our exclusive Soft C-Link technology, it represents the epitome of the best hydration skin booster available, delivering exceptional results for your patients.

Application:

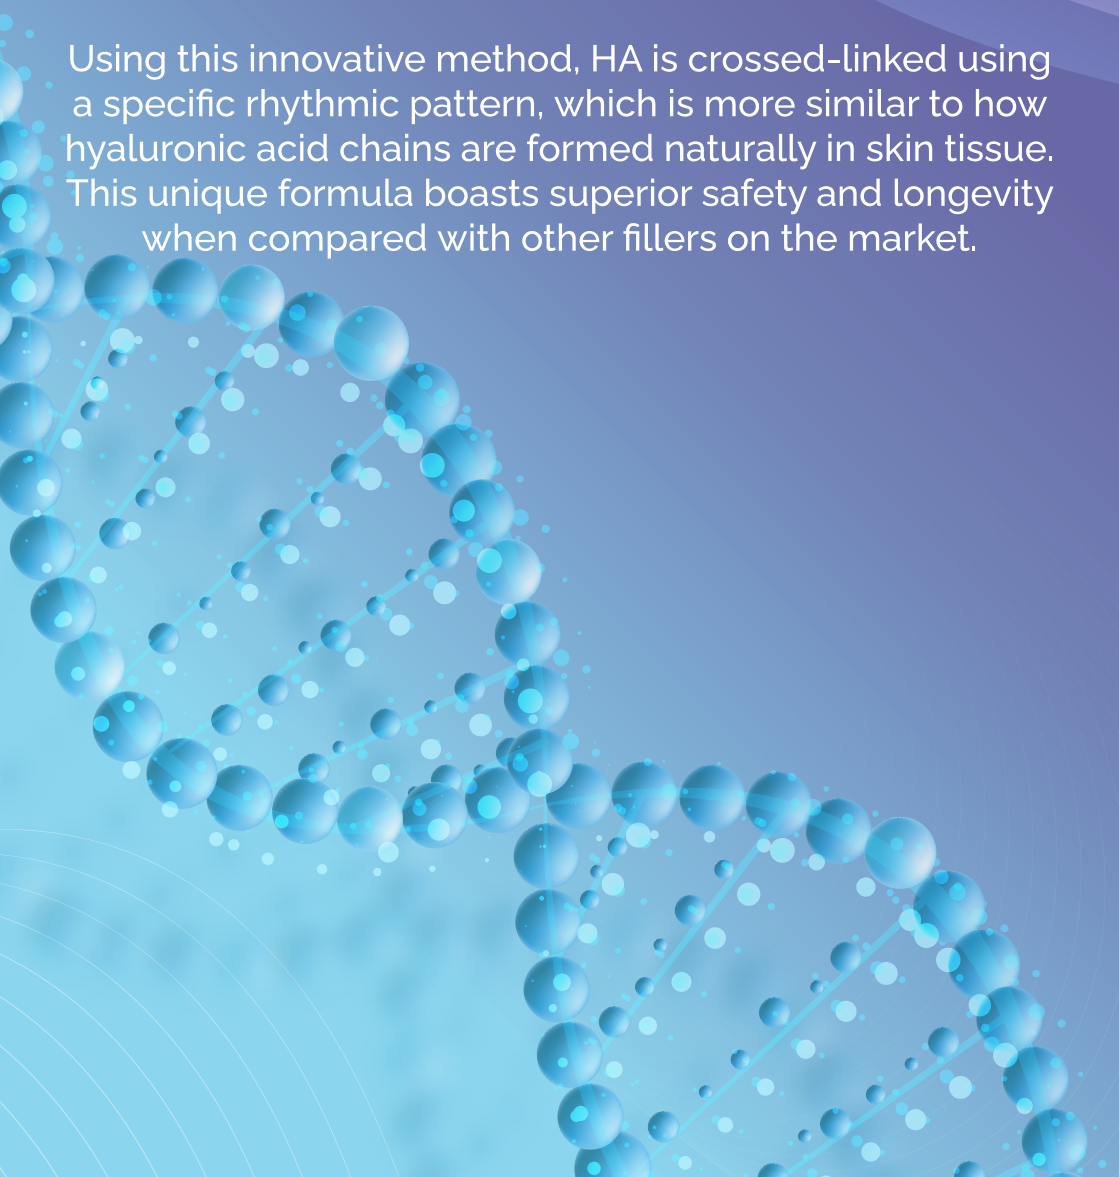

- anti aging
- damages from photo and chrono aging
- lifting

REVOLUTIONARY TECHNOLOGY

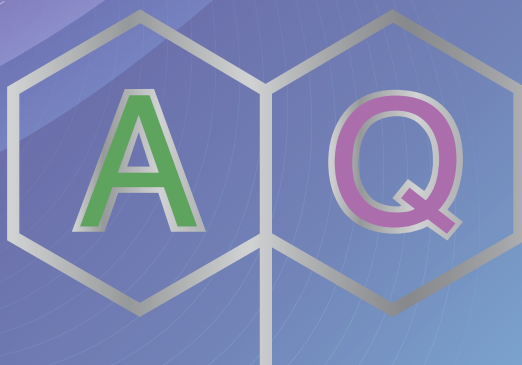

The Prodefine Fillers are Smart Fillers that use proprietary technology termed “Melody” to create the SAFEST and BEST performing hyaluronic acid filler on the market.

Using this innovative method, HA is cross-linked using a specific rhythmic pattern, which is more similar to how hyaluronic acid chains are formed naturally in skin tissue. This unique formula boasts superior safety and longevity when compared with other fillers on the market.
