nos Beast WINTER WHEAT

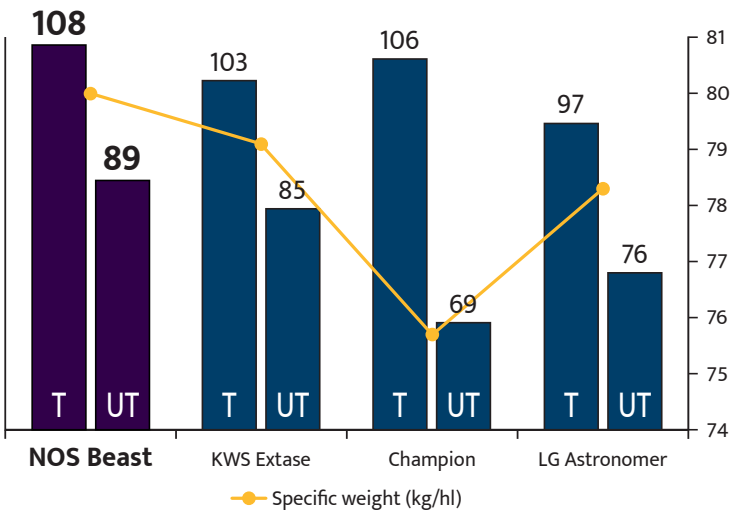

AHDB CANDIDATE

- Very high yields
- Superb disease resistance

NOS Beast is a very high yielding soft wheat, with an outstanding disease package and excellent grain quality.

NOS Beast is a true example of the balance between high yields and disease resistance. Offering an unbeatable level of resistance to the four key foliar disease in wheat mildew (7), yellow rust (9), brown rust (8) and septoria (8). Suited to the main drilling window across the UK with the potential of earlier in the north (where it yields 114%). Its balance of prostrate growth habit and medium speed of development make it competitive against black grass.

UK TREATED/UNTREATED YIELDS	as % T C, 10.7 t/ha

REGIONAL YIELDS	East (10.6 t/ha)	West (11.4 t/ha)	North (10.1 t/ha)
