

## NOS Olena is the joint highest yielding winter barley on the AHDB RL 2025/26.

It is a two-row feed variety combining exceptionally high yields with excellent agronomics and very good grain quality. NOS Olena performs well in all regions of the UK and on all soil types, performing particularly well in the East and North. It has matched or outperformed the market leaders in all years of trials. NOS Olena has very good resistance to lodging coupled with low brackling, good resistance to all diseases and relatively early maturity. NOS Olena is an excellent all-rounder and should appeal to growers across the UK.
