

# Rannoch

## WINTER OAT

AHDB  
RECOMMENDED

Rannoch is an exciting new milling oat, added to the AHDB RL 2026/27.

It has stiff straw and is early to ripen.

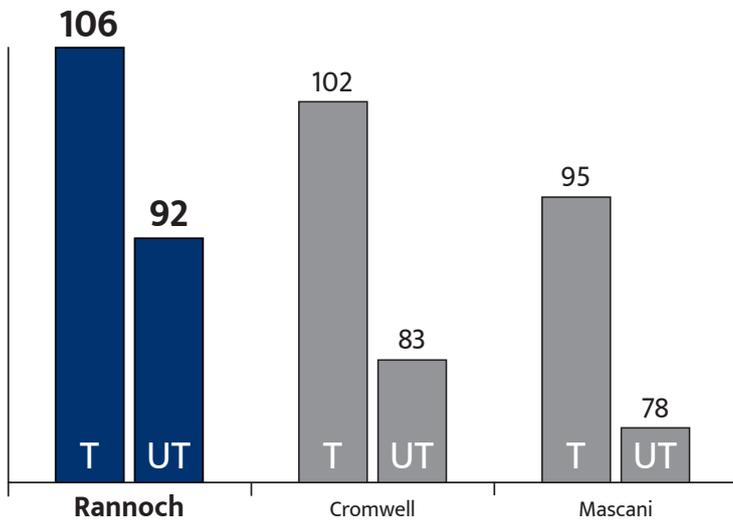

Rannoch has excellent grain quality for the mills with a high kernel content, good specific weight and the desired low screenings. It is a variety with a lot of potential and there is already market interest.

• High yielding milling oat

• Very good grain quality

• Excellent crown rust resistance

### UK TREATED/UNTREATED YIELDS as % C, 9.12 t/ha

### ANNUAL YIELDS

|                | 2023 (9.2 t/ha) | 2024 (9.3 t/ha) | 2025 (8.7 t/ha) |
|----------------|-----------------|-----------------|-----------------|
| <b>Rannoch</b> | <b>[104]</b>    | <b>104</b>      | <b>110</b>      |
| Mascani        | 94              | 93              | 95              |
| Cromwell       | 105             | 103             | 101             |

### GRAIN QUALITY

|                         |        |
|-------------------------|--------|
| Kernel content (%)      | 74.5   |
| Specific weight (kg/hl) | 51.7   |
| Screenings % (<2.0mm)   | 3.3    |
| Kernel colour           | yellow |

### AGRONOMICS

|                               |     |
|-------------------------------|-----|
| Resistance to lodging (1-9)   | -   |
| Straw length without PGR (cm) | 136 |
| Ripening (days ± Mascani)     | 0   |

### DISEASE RESISTANCE

|            |   |
|------------|---|
| Mildew     | 4 |
| Crown rust | 7 |
