## **Evaluation**

Sultan Han Hotel should evaluate the effectiveness of the instructions regarding visits to natural areas.

## **Conclusion**

Sultan Han Hotel will strive to protect natural areas and provide a better experience for visitors by adhering to these instructions.

Possible Risks During Natural Area Visits at Sultan Han Hotel:

**Environmental risks:** Natural areas are fragile ecosystems and can be damaged by visitors.

Environmental risks include things like leaving trash, starting fires, harming plants and animals, and taking photos and videos.

**Health risks:** Natural areas pose various health risks. These risks include heat stroke, insect bites, snakebites, and mushroom poisoning.

**Security risks:** Natural areas pose various safety risks. These risks include getting lost, falling, being injured, and drowning.

Sultan Han Hotel Visitors Should Plan Their Visits to Natural Areas Considering These Risks. Visitors Should Take the Following Precautions to Reduce Risks:

⌘ **Obtaining Permits:** Permits may be required to visit natural areas.

⌘ **Obtaining Information:** Learning about natural areas will help reduce risks.

⌘ **Being Prepared:** Being prepared for visiting natural areas will help reduce risks.

This preparation should include food, water, clothing, shoes, a first aid kit, and other supplies.

⌘ Being Cautious: Being cautious when visiting natural areas will help reduce risks. This caution means paying attention to the environment, plants and animals, other visitors, and one's own health.
