

## Kirk DeWindt's troubling past: a mold poisoning illness!

Jun, 21, 2010

Kirk DeWindt hadn't spent much time with Ali Fedotowsky on Season 6 of *The Bachelorette*, but he got to open up a bit when he won the [poetry competition](#) and was awarded a one-on-one date!

At first Ali is a bit apprehensive to learn that Kirk hasn't dated in about a year, but softens up when she learns that he felt like he was going to die from mold poisoning he got while unknowingly living in a condemned house. The house also had asbestos, so here's hoping he didn't breathe that mess in!

Kirk is excited that Ali now "knows who he is" since he told her about his near-death experience.
