ViBall™ SERIES FOOT

HV-550

PERCUSSION x HEAT⁺ x EMS

EASE FATIGUE. ENERGIZE YOUR LEGS.

ViBall™ YOUR COMPLETE CARE SYSTEM

Revive Your Muscles with Remarkable Regenerative Power

NEXT-GENERATION INNOVATION FOR LEG & FOOT TRAINING AND RELAXATION

By placing your feet on the device while sitting, EMS (Electrical Muscle Stimulation) activates key lower leg muscles to improve strength and endurance. The ViBall™ built-in percussive vibration sphere is ergonomically positioned beneath the foot arch, delivering rhythmic, deep-tissue stimulation to relieve fatigue and enhance circulation. Combined with heat therapy, it supports a complete cycle of warm-up, muscle activation, and recovery.

ViBall™ SERIES BELT

SOOTHING COMFORT. NO HANDS NEEDED. NEXT-GEN 3-IN-1 THERAPY BELT

Powered by ViBall™ Technology for Lower Back Fascia Relief

WORLD-FIRST INNOVATION FOR LOWER BACK RELIEF
DESIGNED SPECIFICALLY TO RELIEVE TENSION AND FATIGUE

The HV-530 introduces a globally patented design that combines deep fascia percussion with targeted heat therapy to relieve lower back discomfort caused by muscle tension and prolonged sitting. This next-gen therapy belt also integrates infrared light therapy, delivering focused energy to muscles and nerve groups around the spine, promoting circulation and easing discomfort at a deeper level. Engineered for daily wear, it features an adjustable angle and fit with a secure velcro strap. It's perfect for use at home, at work, or on the move.

HEAT+TENS SERIES

FT-615

WORLD'S FIRST TENS + HEAT THERAPY FOR MENSTRUAL RELIEF

A Breakthrough Innovation for Women's Period Comfort

DRUG-FREE. SIDE-EFFECT-FREE.

INSTANT MENSTRUAL RELIEF – ANYTIME, ANYWHERE

Developed by HIVOX, a pioneer in TENS technology, Menstrual Relax is the world's first self-adhesive wearable combining clinically proven TENS with targeted heat therapy for effective, drug-free menstrual relief, including all-day period cramps.

This groundbreaking dual-action solution reflects HIVOX's dedication to innovation in women's health. Its unique dual-action design delivers gentle nerve stimulation and warming therapy at the same time, helping block pain signals and release natural endorphins. Lightweight and easy to use, it provides discreet relief anytime, anywhere—at home, at work, or on the go.

Free from medication and side effects, it is clinically validated and recognized as a certified medical-grade device with both Medical CE and FDA 510(k) clearance.

HEAT+TENS SERIES

TAKE CONTROL OF PAIN WITH THE WORLD'S FIRST HEAT+TENS

Dual-channel Handheld & Unibody Device

RAPID & EFFECTIVE SOLUTION FOR YOUR PAIN

Heat therapy is one of the most effective and widely used treatments to relieve everyday pain, reduce muscle tension, and promote healthy blood circulation.

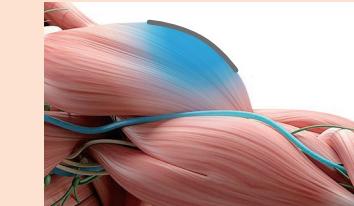

With over 25 years of expertise in electrotherapy, HIVOX has pioneered an advanced solution that integrates HEAT⁺ and TENS technologies into a variety of user-friendly formats. This innovation provides efficient, drug-free pain relief and helps improve the overall quality of daily life.

PAINPAD SERIES

ONE-PIECE TENS PAD FOR INNOVATIVE PAIN RELIEF

Slim, Powerful, and Wearable – The Future of Comfort Starts Here

SMART RELIEF. BRIGHTER DAYS.

Since successfully launching the world's first one-piece TENS device PainPad, HIVOX has redefined how people perceive wearable pain relief. This innovative TENS system quickly gained market recognition by offering a user-friendly, effective solution for everyday discomfort, helping users feel the difference PainPad Series brings to daily life.

PainPad Air features an integrated charging and storage case, designed for fast recharging and easy portability. Whether you're starting your day, working long hours, or traveling, the compact case keeps the device protected and fully powered – so it's always ready when you need relief.

Slim enough to fit into a handbag, backpack, or travel pouch, it's ideal for use at home, at the office, or on the go. This thoughtful all-in-one design ensures pain management stays seamless, convenient, and part of your everyday routine.

NUMBER ONE WEARABLE TENS/EMS MANUFACTURER

SPOPAD SERIES

**POWERFUL TRAINING
COMES FROM YOUR SPOPAD**

Faster & Stronger

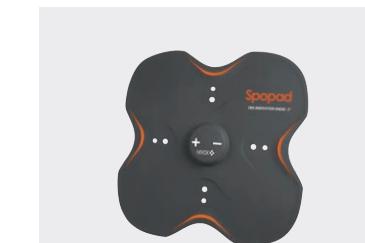

INCREDIBLE EMS TRAINING PROGRAM DESIGN

Equipped with the ultra-thin design and advanced EMS (Electrical Muscle Stimulation) program, its amazing training program has completely changed how people are used to train the muscle before. The benefit of Spopad is over their imagination, it provides the easier way to strengthen and shape the muscle. In the meanwhile, the effectiveness of muscle self-exercising is so obvious after every 20 minutes training.

Spopad is patented by one-piece structure EMS device to simplify the process of exercising the muscle. It's wearable to use under clothes with convenient portability in ANYTIME & ANYWHERE. Spopad was developed with specific appearances and targeted to the different groups of muscle by the different programs. In order to reach the best using experience ever, each of model was driven by several unique cycles alternating. It can squeeze out the muscles' limitation from its training program.

NEW EMS, NEW ERA.

THE FUTURE OF WEARABLE MUSCLE STIMULATION

HEC™ (Hybrid Electronic Clothing) represents the latest innovation in EMS wearable technology, developed through a powerful R&D collaboration between Taiwan's textile and medical device industries. With the combined expertise of HIVOX and its esteemed partners, HEC demonstrates how electrotherapy can be seamlessly integrated into a wide range of fabrics and garments—customized for various everyday needs. Beyond its cutting-edge functionality, HEC also embraces modern fashion trends while maintaining high standards of durability, washability, and long-term comfort.
