

DOOR ACCESS CONTROL

# Walmek security innovations

SMART // SUPERIOR // SUPPORTED

[elevaar.uk](http://elevaar.uk)

## INTRODUCTION TO RFID LOCKS

# Simple, cost effective and easy to manage

A secure and smooth access control solution for guests and hotel employees to manage.

Mobile key technology enabled; driven by cloud-based software.

Guests can access their rooms effortlessly, while hotel management gains the tools needed to run smoother, smarter operations.

# The perfect partnership

In partnership with **Walmek Security Innovations**, we're redefining the way access control is supported in the hospitality industry.

**// Seamless guest experience:**

Effortless, room access with mobile key technology and RFID door locks.

**// Enhanced security:**

State-of-the-art RFID technology offers advanced protection, safeguarding both guest privacy and hotel property with high-level encryption.

**// Cloud-based efficiency:**

Advanced, cloud-driven software that empowers hotel management to optimise access, monitor usage, and streamline processes in real-time.

**// Scalable & flexible solutions:**

Tailor the system to suit your hotel's specific needs, with customisable options.

**// Industry-leading partnership:**

In collaboration with **Walmek Security Innovations**, Elevaar delivers premium support backed by a local manufacturer.

**// Cost-effective solutions:**

We offer exceptional competitiveness and budget solutions and plans that can meet your needs and get your property upgraded sooner.

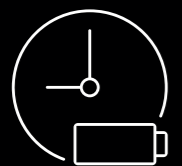

## WALMEK SLIM LINE LOCK

# Elegant security with advanced technology

**The Walmek Slim Line Lock** – Merging cutting-edge technology with a minimalist design, this lock provides robust, reliable access management while elevating the aesthetic of your building.

Fast and secure contactless card technology

Power that keeps going, 2-3 year battery life

**// Advanced contactless card access:**

Experience effortless entry with secure, touch-free access using the latest contactless card technology.

**// Quick and reliable Mifare reader:** Fast, efficient card scanning compatible with the Mifare standard, ensuring smooth and secure access for authorised users.

**// Impressive 2-3 year battery life:** Battery that lasts up to **3 years**, minimising the need for frequent replacements.

**// Low battery warning system:** Receive an alert when the battery is running low to prevent interruptions.

**// Panic release for safety:** A built-in panic release ensures users can exit quickly and safely in emergency situations, giving you added peace of mind.

**// Comprehensive audit trail:** Track access events with a detailed log that stores up to 1,000 entries, enabling precise security monitoring.

**// Metal key override for emergencies:** Ensure total control in emergencies with a mechanical override that functions even if the electronic system fails.

**// Rapid keycard encoding via USB:** Simplify the card provisioning process with a high-speed keycard encoder that connects directly to your PC via USB.

## WALMEK RFID UPGRADE KIT

Secure,  
cost-effective,  
effortless

The **Walmek RFID Upgrade Kit**—the quickest and most cost-efficient way to transition from outdated magnetic locks (MAG LOCKS) to cutting-edge RFID technology.

There's no need for complex installations or disruptions to your daily operations. Simply replace the electronics and continue using your existing locks—no drilling, no mess.

Created in partnership with **U3D at UCD** and manufactured **in Ireland**, the **Walmek RFID Upgrade Kit** delivers a simple and reliable, high-performance security solution that you can count on.

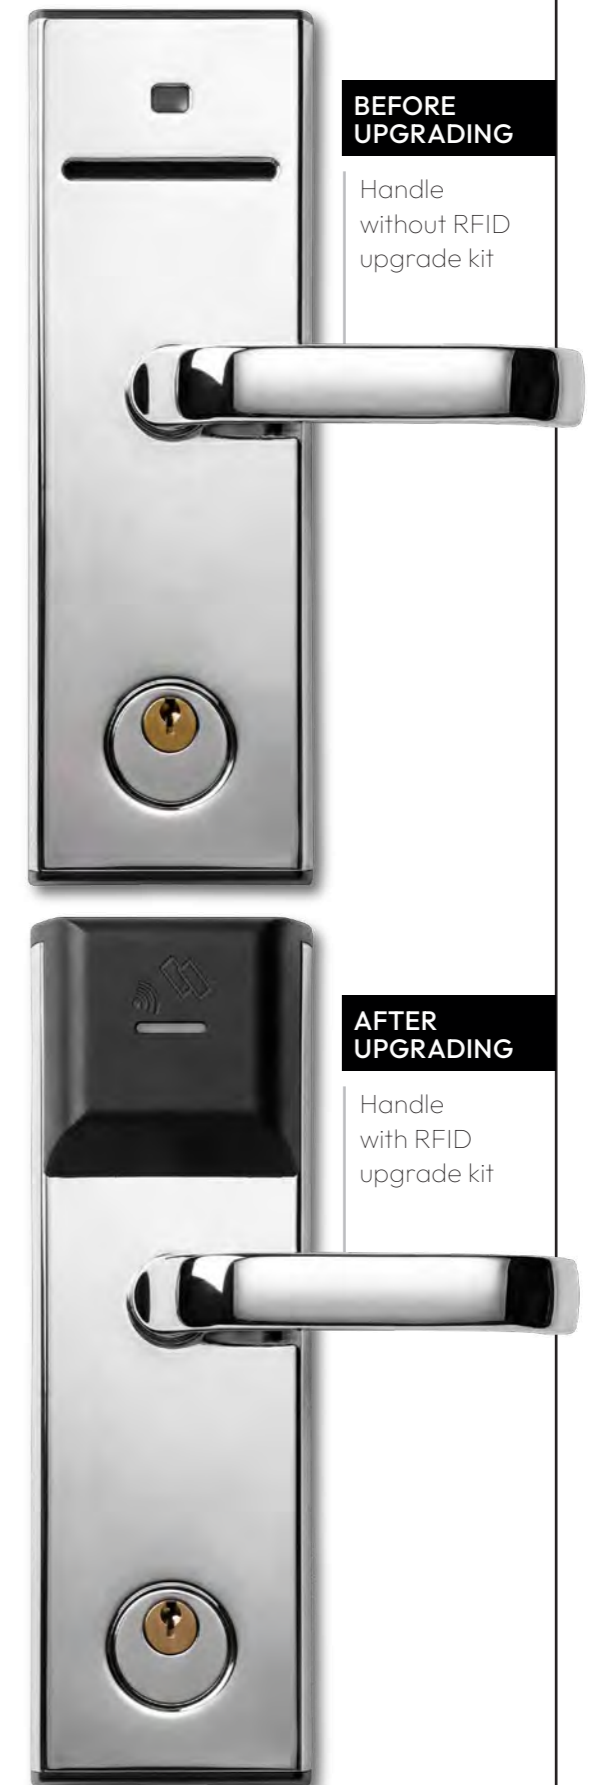

Upgrade existing locks to contactless

2 year warranty on lock and electronics

- // **Keep existing locks:** Upgrade to RFID without the need for replacing current hardware—no added costs, no added hassle.
- // **Say goodbye to faulty keycards:** RFID technology eliminates the frustrations of worn-out or malfunctioning magnetic keycards.
- // **Complete lock service:** Your existing locks receive a thorough service, ensuring they operate at peak performance with the new RFID system.
- // **2-year warranty on original locks:** Two years of coverage on your serviced locks, ensuring continued reliability.
- // **2-year warranty on RFID electronics:** Longevity and quality of your new RFID electronics, backed by a full two-year warranty.

## MOBILE KEY – SELF CHECK-IN

Effortless,  
cost-effective  
access

- // **Effortless access:** Guests unlock their rooms directly from their smartphones—no physical keycards needed.
- // **Top-notch security:** Advanced encryption ensures secure, tamper-proof access.
- // **Contactless & hygienic:** Touch-free entry reduces contact points for improved guest safety.
- // **Streamlined check-in:** Guests can check in and receive their mobile key prior to arrival and bypass the front desk.
- // **Cost-effective:** Cut costs by eliminating keycards.
- // **Remote control:** Grant or revoke access in real-time with cloud-based management.

## HARD-WIRED RFID WALL READERS

Secure, fast,  
contactless  
entry

- // **High-traffic efficiency:** Ideal for main entrances and high-traffic areas, ensuring fast, reliable access for large volumes of people.
- // **Secure access:** Provides robust, tamper-resistant security with RFID technology, preventing unauthorised entry.
- // **Minimal maintenance:** Low-maintenance, hard-wired setup eliminates issues like battery replacements, offering long-term reliability.
- // **High security:** Offers secure encryption and authentication, ensuring maximum protection at critical entrance areas.

## CLOUD-BASED STAFF SOFTWARE

# The cloud key to guest satisfaction

// **Remote management:** Access and monitor your system from anywhere, anytime, with secure cloud connectivity.

// **Real-time monitoring:** Track access events and manage user permissions in real-time for enhanced security and efficiency.

// **Cost-effective:** Reduce hardware and maintenance costs with a cloud-based solution that doesn't require on-site servers.

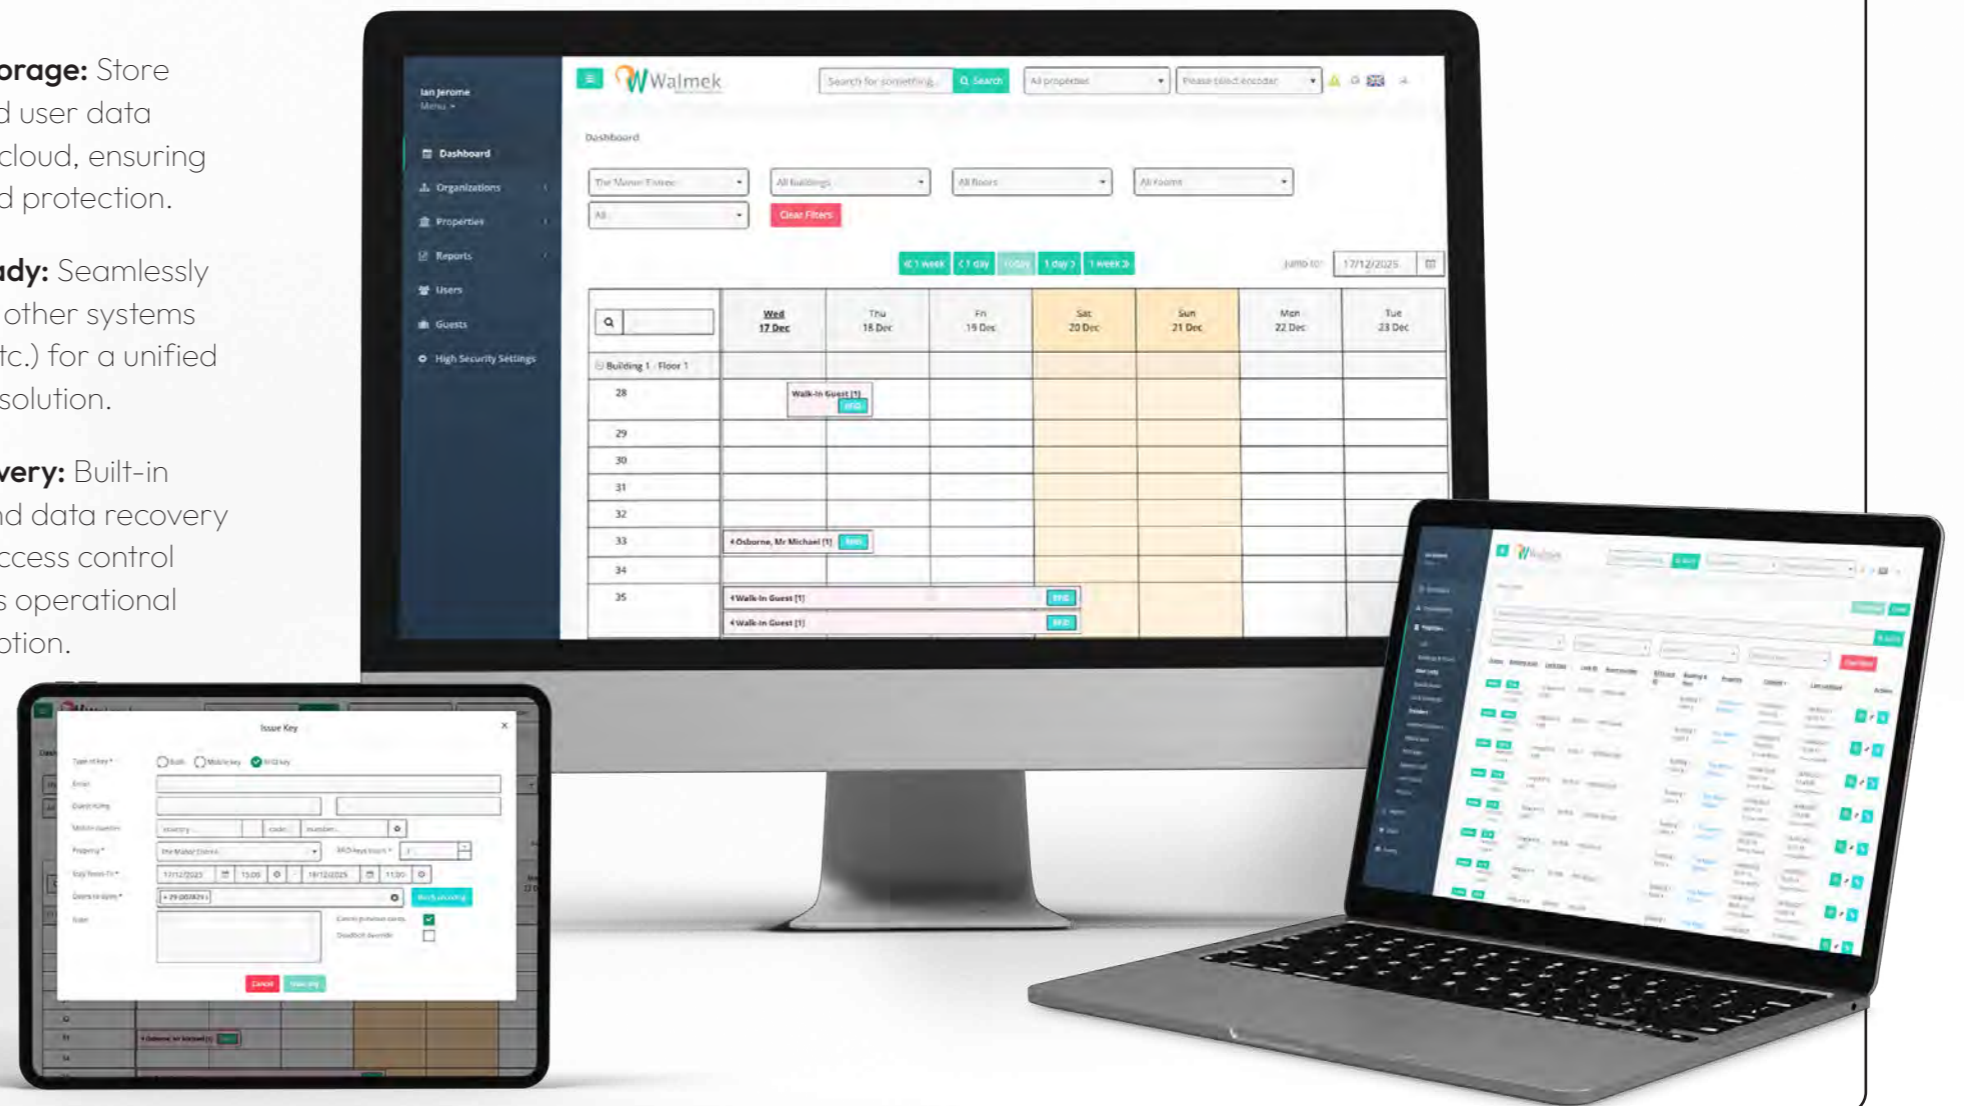

// **User-friendly interface:** Intuitive dashboard and controls for quick setup and easy day-to-day management.

// **Automatic updates:** Stay up to date with the latest security features and software improvements, with automatic cloud updates.

// **Secure data storage:** Store access logs and user data securely in the cloud, ensuring compliance and protection.

// **Integration ready:** Seamlessly integrates with other systems (PMS, HVAC, etc.) for a unified smart building solution.

// **Backup & recovery:** Built-in redundancy and data recovery ensures your access control system remains operational without interruption.
