# Installation requirements

**Adequate ventilation:** it is essential to ensure proper air inlet and outlet for optimal operation of minibar.

- **Lack of ventilation reduces performance and increases the energy consumption and shortens the lifespan of the minibar.**

- a. equal to or greater than **6 cm** except Glow: **11 cm**
- b. equal or greater **12 cm**
- c. equal or greater **5 cm**

## Minimum measurements:

- Sides: 6 cm
- Top: 12 cm
- Rear: 6 cm

## Maintenance

### Recommended monthly cleaning:

- Clean the minibar once a month.
- Use a damp cloth.
- Avoid the use of chemical products that can damage the components or the interior.
