

ENGINEERED FUNCTIONALITY  
FOR ELEVATED LIVING

LUXURY IN-HOME & CORPORATE PROFESSIONAL ORGANISING

Why us? What we do

MK Method is a luxury storage and system integration studio specialising in precision kitchen and wardrobe design for refined residences.

We work with private clients, estate homeowners, interior designers and developers to integrate structured internal systems that elevate daily living.

Our approach is intentional  
Every drawer is measured.  
Every zone is designed.  
Every item has a defined place.  
We do not simply organise homes.  
We engineer functionality into beautiful designs.

Organising Services

Kitchens | Pantries | Sculleries

Home Office | Studies

Bathrooms | Vanities

Garage | Storage Spaces

Bedrooms | Wardrobes

Moving | Unpacking

MK IN THE MEDIA

**BEING ORGANISED ISN'T ABOUT BEING TIDY, IT'S ABOUT CREATING FUNCTIONALITY & STRUCTURE TO ACHIEVE YOUR GOALS.**

## **HOW WE WORK**

### **OUR PROCESS**

#### **1. Consultation & Needs Assessment**

We conduct a detailed in-home or virtual consultation to assess your space, lifestyle requirements, timelines and budget parameters.

#### **2. Project Scope & Cost Estimate**

A formal cost estimate is issued based on the scope of work, team allocation and product requirements.

#### **3. Decluttering & Categorisation**

We systematically declutter and categorise items to establish structure.

#### **4. Space Planning & Product Integration**

Custom inserts and storage solutions are measured, sourced and implemented.

#### **5. System Installation & Labelling**

Final organisation, styling and labelling are completed to ensure long-term usability.

#### **6. Client Handover**

We walk you through your new system and provide maintenance guidance

“We create structured, sustainable systems designed for long-term functionality.”
