

Patient-145

Patient-145 was put through multiple, unnecessary surgeries at Sunrise Hospital while they ignored the primary cause of his illness for a month. Hospital refused the family's requests to have the patient transferred to a different hospital. Horrendous treatment.

ALERT: If you are currently in the hospital and your rights are being violated or they are trying to force you to do something against your will, call Hospital Hostage Hotline right now at [888-219-3637](tel:888-219-3637).

Here is the story of Patient-145:

I am giving 1 star, and this is pushing it.

My family member was sent to this establishment (Sunrise Hospital), and they ignored the primary cause of his illness for a month.

The doctors refuse to listen and so do the nurses.

Due to their ignorance, my family member has endured surgeries and grave complications. The hospital tells us they cannot do anything and yet they refuse to transfer them to higher level of care (somebody who can).

They even told us that ambulances don't have ventilator capabilities which is not truthful.

They tell us transferring the patient isn't an option because of insurance or because we are asking -- saying it doesn't work like that.

I know how the system works. I work in the system.

This hospital messed up in the beginning and is now trying to cover their tracks.

We have tried to talk to risk management but can't get a call back.

Instead, my family member endures worsening treatment and horrible attitudes in retaliation.

They even had the audacity to move my family member in the middle of an honor walk which scared the kid that they were taking him to surgery to steal his organs. The nerve. My hospital would never move a patient during an honor walk like that.

They should be ashamed.

I hope and pray that nobody has to endure what we have at this facility ever again.

They have broken so many ethical oaths.
