

Patient-166

Patient-166 went to Sunrise Hospital. Patient said it was the most disgusting, filthy hospital she has ever seen. No cleaning. No privacy. Cannot believe it is allowed to stay open. They need to rethink the system or shut it down.

This was truly the most disgusting/filthy hospital I have ever seen.

I cannot even believe it is open/running the way it is!!!

Very obviously short staffed and in need of a huge makeover/shut down start over.

Patients in recliner chairs that don't even recline with not even a full privacy curtain in between.

When I was first taken back into the Emergency Room (ER), it looked insane.

I didn't even know an ER could be ran like this.

No call bells/lights on entire time.

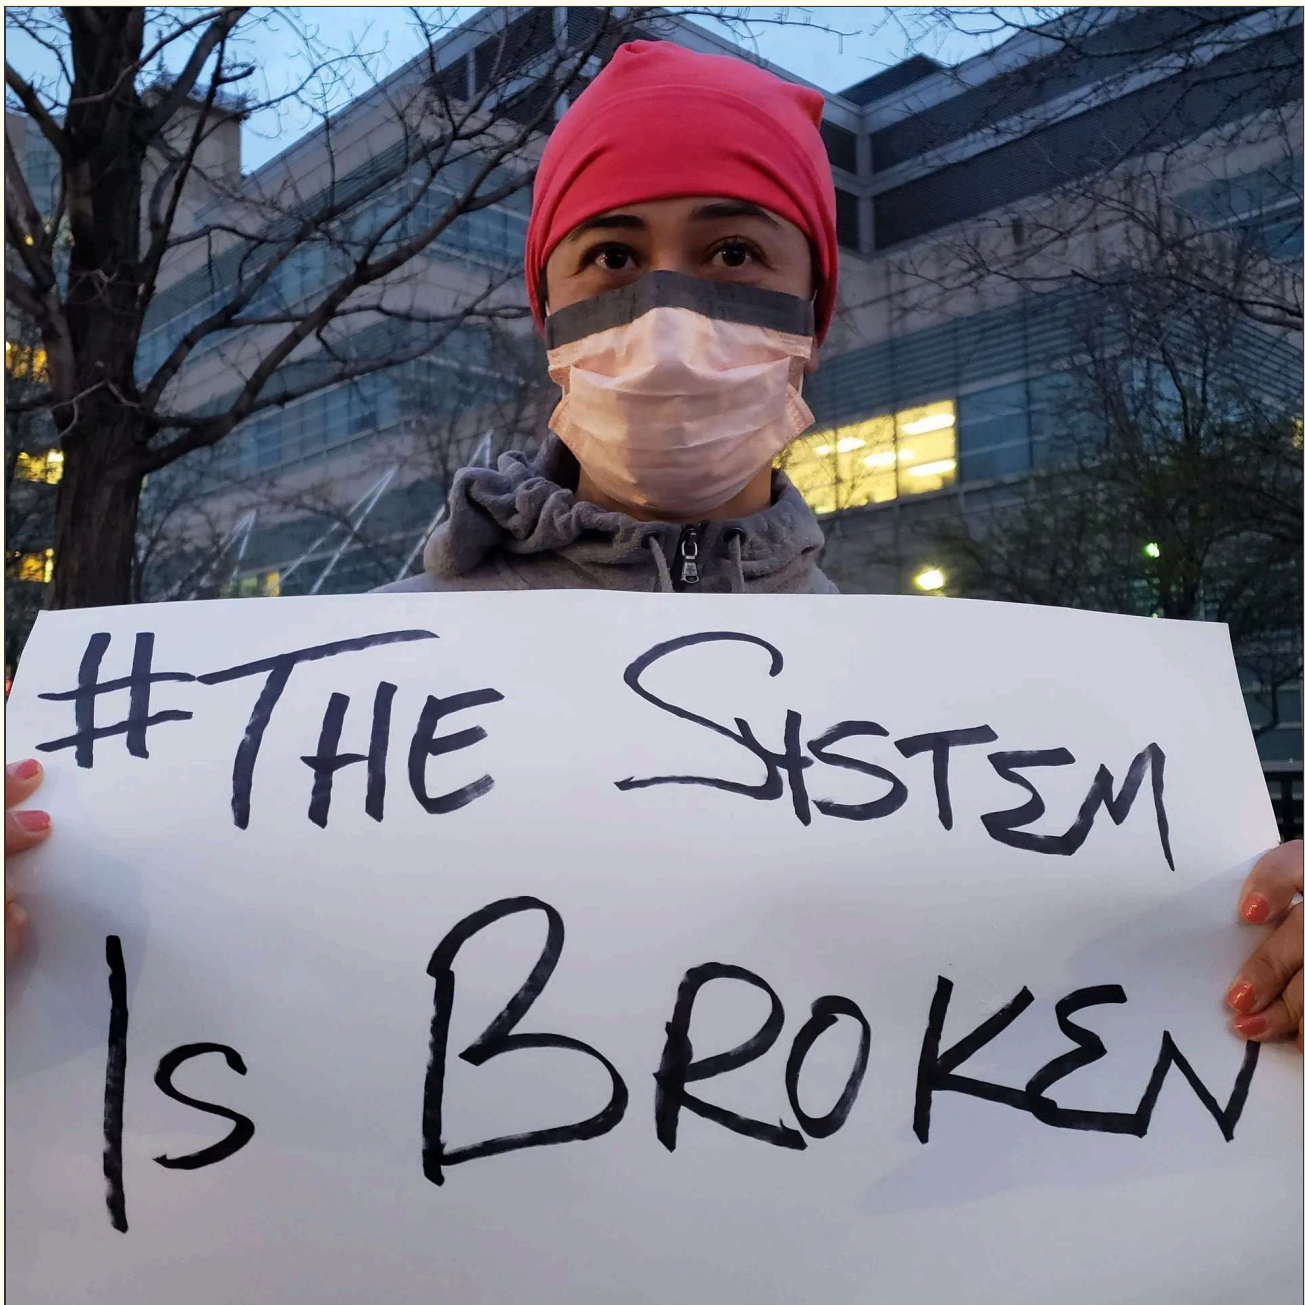

No covers on the filthy recliner chairs that people pee on.

No rooms available.

They needed a urine sample from me. When I went into the bathroom, there was urine spread out all over the floor and paper towels thrown on top of the urine just laying there.

Patients are not being monitored closely enough, and it's just a matter of time till someone dies from the lack of organization/staff/resources in this place.

Whoever is in charge here needs to rethink this system.

Just say NO to Sunrise Hospital
