

Patient-167

Patient-167 is a toddler who was taken to Sunrise Children's Hospital with a temperature over 105 degrees. They tried to force them to wait in the waiting area. The room had blood and urine on the counter and the bed. Tried to force the child to have unnecessary procedures. They stole the medical images and refused to give them to the parents. Your hospital should be shut down!!

This hospital is a disgrace to medical care.

My toddler son's temperature was over 105, and they attempted to make us wait in the waiting room.

The room had blood and urine on the counter and on the bed.

The blond nurse, Dani, was patronizing and dug around in my son's hand for a vein when she clearly did not know what she was doing.

They wanted to perform unnecessary procedures that would have caused a stroke because of my son's ailment.

When I refused, the charge nurse threatened to escalate with social services. Another hospital had to intervene and tell them NO.

They stole my son's images and refused to return them.

This is a FOR PROFIT hospital.

They don't care about children. They care about making money whether or not it hurts children.

Do NOT take your child to this hospital.

The fact that this hospital has any accreditation from any health organization demonstrates the lack of actually inspecting the conditions of the hospital and screening the nurses and doctors.

Their own attending physician said "if you want good medical care, don't live in Las Vegas."

And to the owner - don't bother responding with "we will help and please call". You will do nothing and ignore.

Your hospital should be shut down!!

There are many patient stories saying that Sunrise Hospital needs to be shut down. This is a stock photo showing another hospital that was closed.

**Just say NO to Sunrise Hospital
and just say NO to Sunrise Children's Hospital**
