

Patient-176

Patient-176 went to Dr. Reynold Rimoldi at Nevada Orthopedic & Spine Center. Patient says Dr. Rimoldi is either blind or intentionally ignored the injuries shown on her scans. She went to a different doctor where she received an accurate diagnosis and will get the surgery that is needed to repair the damage. Patient advises everyone to GET A SECOND OPINION.

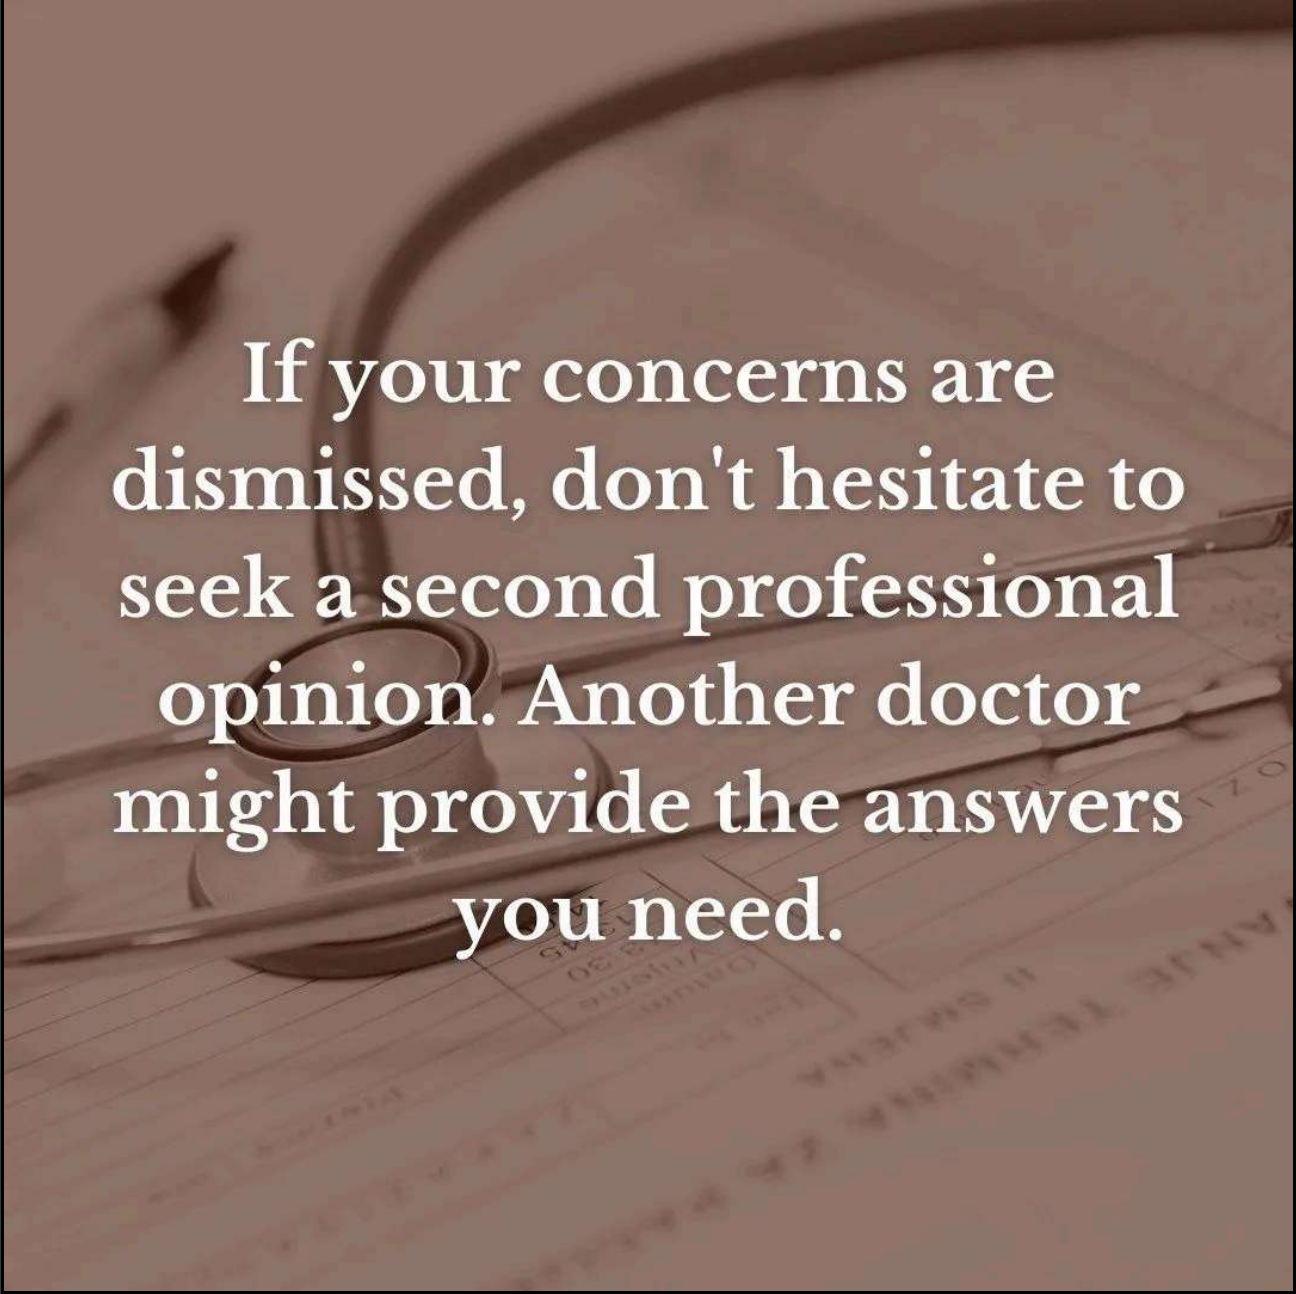

If your insurance company sends you to Dr. Reynold Rimoldi, use your legal right to get a second opinion.

In my opinion and due to my personal experience, Rimoldi is either blind or getting paid to tell insurance companies what they want to hear in order to not have to pay to treat you.

The neck injury he couldn't see in my multitude of scans and examination was resolved after a second opinion said I needed disc replacement and joint fusion.

Thanks to the second opinion, I got the surgery I needed.

The injury he also couldn't see in my lower back is now getting treatment thanks to a second opinion.

If your concerns are dismissed, don't hesitate to seek a second professional opinion. Another doctor might provide the answers you need.
