

Patient-177

Patient-177 went to Dr. Holman Chan at Nevada Orthopedic & Spine Center. Dr. Chan told the patient he had a fractured hip and told him to do whatever he wanted for treatment. Patient went to a different doctor and learned it was actually bursitis (not a hip fracture).

Patient-177 went to Dr. Holman Chan at Nevada Orthopedic & Spine Center and was misdiagnosed.

LEFT HIP FRACTURE according to Dr. Holman Chan.

My December 1, 2023, appointment with Dr. Chan, which I remember like it was yesterday, was RUSHED -- even though I was 1.5 hours early.

Someone even filled out a lot of the paperwork for me.

At first, Dr. Chan said I could go back to being a School Crossing Guard the next day with a fractured hip. Really?

His idea of a treatment plan was whatever I wanted.

Instead of answering my questions directly, Dr. Chan would reply "What do you think?" or "It's up to you."

And my follow-up appointment would have been with his assistant.

Fortunately, I got a second opinion elsewhere, and found out that Dr. Chan had MISDIAGNOSED ME!!!

TROCHANTERIC BURSITIS LEFT HIP WAS THE CORRECT DIAGNOSIS rather than a fracture.

I got successfully treated elsewhere.

BURSITIS

BURSAE are small sacs of synovial fluid in the body.
BURSAE cushion the bones, tendons and muscles near your joints.
Bursitis is the **inflammation** of one or more BURSAE.

Common locations for BURSITIS

- Shoulder
- Elbow
- Hip

Inflamed Trochanteric Bursa

Healthy Trochanteric Bursa

Muscle

Tendon

ILIUM

SACRUM

ISCHIUM

FEMUR

Hip Joint

HIP BURSITIS

SYMPTOMS

- Joint might feel achy or stiff
- Joint might hurt more when you move it or press on it
- Joint might look swollen and red

Patient-177 went to Dr. Holman Chan at Nevada Orthopedic & Spine Center. Dr. Chan told the patient he had a fractured hip and told him to do whatever he wanted for treatment. Patient went to a different doctor and learned it was actually bursitis (not a hip fracture).

**Just say NO to Nevada Orthopedic
and just say No to Dr. Holman Chan**
