

Patient-193

Patient-193 went to Sunrise Hospital. The hospital kept doing unnecessary tests without the patient's consent and sent her a bill for \$45,000. Patient says it seems like none of the employees went to school. Another bad placement of the IV. Patient had to demand to be released from the hospital. Very traumatizing experience.

Patient-193 went to Sunrise Hospital and had a very traumatizing experience.

Patient says:

Sunrise Hospital should be rated 0 stars.

Never go here. It's a scam.

They kept giving me random tests, even though I kept refusing.

It's all about money, and they don't actually help.

When I was there, some dude was walking around with his butt cheeks out, with his pants and underwear at his ankles.

The people working there are absolutely terrible at what they do.

It seems like the place where none of them actually went to school.

Not to mention the IV they gave me. I was really bruised for about a month, and it was so big of a bruise that people were concerned.

They are all about money, and now they want me to pay them \$45,000.

I had to stand on a chair (demanding to leave) just so I would get kicked out -- so they would stop doing everything without my consent and just trying to make money out of

me.

Where I'm from, every single person in that hospital (except Dr. Evan) would have been fired instantly and sued.

I am 20 years old, and that whole experience and everything going on at that hospital was very traumatizing.

Sunrise Hospital should be rated 0 stars.
