

Patient-202

Patient-202 went to Sunrise Hospital. Received very little medical care. A man in normal clothes came to the patient's room -- did not introduce himself or give his name or title. Who was that man? Was he a doctor? After 7 days and still no diagnosis, the patient left and went to a better hospital in California. The patient's family has left numerous messages with Sunrise Hospital to try to share their concerns, but nobody has returned their calls.

Some man in normal clothes who did not introduce himself or tell me his name, told me I could leave when I let a nurse know that my son's health was at the same place as when we arrived -- after seven days of being there.

Her ego (the nurse's ego) was bruised.

After seven days, Sunrise Hospital still did not have a diagnosis for my son, and they were preparing to send us home.

We are now in Loma Linda (a hospital in California) and have been here since we left Sunrise Hospital.

I took my son to the emergency room in my local hometown after leaving Sunrise Hospital. He was very ill.

We immediately came to Loma Linda where we have been, and he is getting treatment.

I have left numerous comments and messages (for Sunrise Hospital) to have someone contact me and no one has called.

The man in normal clothes told us we could leave. Who was he? Was he a doctor?

It was a disgrace.

There is no leadership at Sunrise Hospital.

There is no commitment to patient care.

Patient-202 went to Sunrise Hospital. He received very little medical care.

**A man in normal clothes came to the patient's room -- did not introduce himself or give his name or title. Who was that man?
Was he a doctor?**

After 7 days and still no diagnosis, the patient left and went to a better hospital in California.
