

Patient-255

Patient-255 went to Sunrise Hospital and died. Patient's sister says this is the worst possible hospital to die in. The patient's family was not given time to say goodbye. The social worker was awful. Process was rushed. They stole the other siblings' chance to say goodbye.

This is absolutely the worst possible hospital to die in.

I had the worst experience.

The staff rushed me to say goodbye to my brother, and my siblings never got a chance because there were already people in the room to take my brother away.

I didn't get asked if I wanted time with him alone.

I felt like I was in a zoo.

They just stood there as I scrambled to understand the gravity of the situation and offered no guidance.

The social worker was awful to my family, and I was too naive to know any better.

They were more concerned with trying to figure out the circumstances of my brother's death than my comfort.

They stole my other siblings' chance to say goodbye.
