

Patient-263

Patient-263 went to Dr. Reynold Rimoldi at Nevada Orthopedic & Spine Center. Patient says Dr. Rimoldi does NOT listen and does NOT care about your pain. He slides into the room like he's Kramer. Never spends more than 3 minutes with you, and it gets worse post-op. Did a hack job on my surgery, and Dr. Rimoldi would not fix what went wrong.

If you are looking for a doctor that REALLY listens or cares, this is NOT your doctor!!!

He slides into the room like he's Kramer (from the Seinfeld show).

He is chaos and never spends more than 3 minutes with you, and it gets worse post-op.

He doesn't care if the nerve pain in your body persists after his HACK JOB.

He only cares about how the structure looks in X-rays!!

Does NOT care about anything else and can't stop patting himself on the back for making the structure look nice in pics -- you know, because that's what matters to a person's quality of life!!!

I mentioned my neck back in December, and he blew me off and walked out of the room -- literally talking himself up.

It was a joke!!!

I went back because my neck has gotten out of control nerve pain.

He released me (as a patient) because I basically said he did a half job of on my lumbar surgery.

He got in his feelings and said, "Well, I won't operate on you because you are unhappy with your results."

Just say NO to Dr. Reynold Rimoldi.
