

Patient-282

Patient-282 went to Sunrise Hospital with a urinary tract infection. Patient was in severe pain. It took them 35 1/2 hours to take a urine sample. Then another 5 hours to get an antibiotic. Nurses were negligent and horrible. Be aware and be assertive.

Patient-282 went to Sunrise Hospital with a painful urinary tract infection.

I informed nurses I had a painful UTI (urinary tract infection).

I asked if I could please be tested, ASAP, because the pain was so bad.

It took 35 1/2 hours for them to take my urine sample.

Then it took another 5 hours to be given a "general antibiotic," and the results were not back from the lab.

I was nice when asking to be tested for that 35+ hours, but they did NOTHING.

The pain was so high that the last 5 hours before they finally took my urine sample, I asked for help every hour.

I am shocked they let a patient go this long without any assistance or help.

This is only one example of the bad treatment I received here at Sunrise Hospital.

Some nurses were negligent and horrible.

Be aware and be assertive.

Talk to a higher up nurse if you do not get good or even fair help.

Note to reader: Many other patient stories say the higher up nurses and supervisors will not help.

Just say NO to Sunrise Hospital
