

Patient-324

Patient-324 went to Sunrise Hospital. Staff are non-responsive. Beds are so close together they are practically touching. Horrible smell of urine. Lack of communication. No baths, no pitchers of water, and no communication. Felt like I was in a nightmare that would not end. Patient says "What happens in Vegas should NOT stay in Vegas!! Get the word out!! DO NOT use Sunrise Hospital!!"

Patient-324 went to Sunrise Hospital.

This is such a non-responsive hospital!!!

From the patient rep who doesn't give you her last name because she just happens to be out of her cards and can't wait to get off work and says she will check back with you but never does -- to the doctors who never make it to your bedside.

My roommate (the patient who was sharing my room) left AMA (against medical advice) because her doctor had NOT seen her since Monday and this was a Thursday!!

Rooms are so small that your beds are practically touching!!

Smell is horrible!! Old urine smell throughout!!

Staff is international. Very difficult to understand their English. Ask for an interpreter.

No one knows lab results or procedure results and will NOT give them out.

Nurses cannot get a response from the doctors so communication breaks down instantly.

Do NOT go to Sunrise Hospital alone!!!

You must have an advocate at all times!! (This has been mentioned numerous times in patients' stories, and we include this important tip on the home page of this website.)

Food does NOT match the diet ordered. Soft low residue diet is NOT broccoli, turkey sandwich and peas.

You are entering this hospital at a very high risk.

Windows do NOT open and when the smell of your own blood's stench gets to you, instead of bringing a fan, they give you a handheld paper fan.

No baths.

No pitchers of water.

No communication.

I was given medication for a condition I never had.

So scary!!

Felt like I was in a nightmare that would not end!!

Only good thing was that even though my hemoglobin kept dropping, the doctor signed me out.
Eternally grateful for that!!

What happens in Vegas should NEVER stay in Vegas!!

Get the word out!!

Do NOT use Sunrise Hospital!!

Doctor learns about another surgical mistake

SUNRISE HOSPITAL VEGAS

DANGER. NEVER GO ALONE

If you must go to Sunrise Hospital, take a family member or friend who can watch over you and ensure you are not ignored or mistreated.

Woman leaving the hospital due to lack of medical care

- Medicare rating is based on patient data (not fake reviews).
2. On Yelp, Sunrise Hospital has more than 750 reviews, with an average rating of 2.1 stars (out of 5 stars). Remember, 42% of positive reviews are fake, so the rating is likely much lower than 2.1 stars.
 3. If you must go to Sunrise Hospital, DO NOT go alone. Take a family member or friend who can watch over you and ensure you are not ignored or mistreated. Remember, you can leave and go somewhere else.
 4. Learn about Never Events, fake reviews, how hospitals try to avoid liability, lawsuits against Sunrise Hospital, and Who to Call for help, and see patient photos and pictures of the facility.
 5. The DOJ reached a settlement with Sunrise Hospital regarding the hospital's violation of the Americans with Disabilities Act (ADA). If you see Sunrise Hospital violating ADA rules, contact the DOJ.
 6. Sunrise Hospital has armed guards and metal detectors and an intensive security process. You will have your picture taken and wear an ID badge, and you might be searched.
 7. Take pictures and videos of everything and record conversations. Nevada law says you can record "in-person conversations" if at least one party consents (that one party can be you).
