

Patient-34

Patient-34 went to Dr. Michael Bradford with Nevada Orthopedic & Spine Center. Dr. Bradford did not provide medical care, and his staff (once again) demonstrated intentionally inept scheduling, with long delays and unreturned phone calls. The patient went to UMC Orthopedic and received good medical care.

Dr. Michael Bradford (with Nevada Orthopedic & Spine Center) is the worst!!

9 months before I was able to get in, my knees started hurting and progressively got worse. Then my back and groin started killing me. The pain was so extreme I could barely get through my physical job on a daily basis.

When I finally got in to see him, he barely looked at me and said he could give me injections. I asked him what happens then, and he said you'll be fine after that. So, I agreed to get the injections in both knees and my groin. He didn't even do them himself. He sent in someone else. That person asked where it hurts and that's where he gave me the injections.

The injections had no effect on the pain, whatsoever.

He did order an MRI which was done about a month later. It showed I had torn meniscus in both knees.

I called to see what could be done, but I could only get through to his nurse. It took 2 weeks for her to get back to me. She said I could get surgery, but he was booked up for the next 4 months because he only does those 1 day a month.

The pain was so extreme that I couldn't wait. I went to UMC Orthopedic and a doctor checked me out thoroughly and took X-rays.

Come to find out, I needed a hip replacement.

A month later, I had the hip surgery and was pain free instantly. It was a miracle!!

I would never recommend Nevada Orthopedic & Spine and especially not Dr. Bradford.

Go to UMC Orthopedic for good medical care.

Nevada Orthopedic employees' failure to schedule or honor appointment times and to intentionally provide inept customer service (along with nonexistent medical care and non-responsive communication) are common complaints in the reviews posted by patients of Nevada Orthopedic & Spine Center.

This is a stock photo that illustrates an employee who is not doing their job.

Just say NO to Nevada Orthopedic and just say NO to Dr. Michael Bradford
