

# Patient-36

**Patient-36 went to Sunrise Hospital in an ambulance with severe back pain. The hospital put him in a wheelchair in the waiting room. He received no medical care and none of his prescriptions for 8 days. He left the hospital with the same pain.**

If you value your life, stay away from Sunrise Hospital!!

I was taken to Sunrise Hospital via ambulance because I had severe back pain with numbness and collapsed on the ground.

**Even though I couldn't walk and was in severe pain, they picked me up and put me in a wheelchair and rolled me into the waiting room!!**

I guess that's the way they treat possible spinal cord injuries at Sunrise Hospital!!

**I was in the hospital for 8 days with terrible care. The worst nurses and nursing assistants you will find anywhere. No compassion whatsoever.**

**I have a heart condition, and the doctors at Sunrise Hospital did NOT give me any of my prescription medications the WHOLE TIME I WAS THERE.**

I was discharged on the 8th day with the same pain as when I arrived.

They told me they gave me prescriptions for the same meds that I was getting while I was in the hospital, but that was another lie!!

**Stay away from Sunrise Hospital at all costs!!**
