

Patient-48

Patient-48 is a female patient who was burned when the staff used an industrial sanitation wipe (meant for equipment cleaning) to clean her body. Sunrise Hospital denied it and covered it up and discharged the patient just one hour after they injured her.

My mother developed an infection (after a knee replacement surgery).

She went to the Emergency Room at Sunrise Hospital on 11/2/2024, and she was admitted to the hospital.

My mother was seriously injured when a CNA by the name of Neet and a nurse by the name of A.Hind tried to hide an incident upon changing my mother's diaper.

CNA Neet used an industrial sanitation wipe meant for equipment cleaning on my mother and burned her private region and tried to cover it up by putting cream to stop the burning and pain she was in - even though my mother told them it burned from the start.

One hour after they injured her, the hospital discharged her even though she was supposed to be there until November 4.

The behavior of staff and Sunrise Hospital was very unprofessional and neglectful.

If anything comes of this from her primary care doctor whom will see her in the following day, charges will be brought against this hospital and the 2 employees involved in the attempted cover up.

Watch your loved ones or anyone who has to be admitted here.

My mother was seriously injured at Sunrise Hospital by a CNA named Neet and a nurse named A.Hind.

CNA Neet used an industrial sanitation wipe **meant for equipment cleaning** on my mother and burned her private region and tried to cover it up by putting cream on it to stop the burning and pain she was in.

The hospital denied it and covered it up and discharged my mother one hour after they injured her.
