

Patient-64

Patient-64 is an elderly patient who was left in the hallway for 12 hours with no food or water. Hospital is dirty with unclean floors and bathrooms. After the family complained on social media, the patient was placed in a small, cubicle space with a curtain.

I would rate Sunrise Hospital lower if I could.

They left my 89-year-old mother in the hallway for 12 hours with no food or water.

When the cardiologist finally showed up, he was upset at my mother because she was so dehydrated. What do you expect after no water for 12 hours?

They finally gave her a so-called room after we complained on social media.

It was a very small cubicle space with a curtain. It was very noisy and cramped.

The nurses were "nice" but provided no supplies and gave my mother cold food, with no way to reheat it.

This is worse than a third world hospital.

Hospital is also very dirty. The bathrooms were also dirty. I visited 3 different bathrooms, but they were all dirty.

I'm not sure the floors in the hospital are ever cleaned.

If you have a choice, DO NOT come to Sunrise Hospital.

This photo was posted by another patient at Sunrise Hospital. It appears to be similar to the small space that was described by Patient-64.

Protect yourself. Just say NO if you are being mistreated or harassed at Sunrise Hospital. REMEMBER, you can leave and go to a better hospital.

Just say NO to Sunrise Hospital
