

Patient-68

Patient-68 met with Dr. Arthur Taylor at Nevada Orthopedic & Spine Center. The patient saw the doctor 4 times, but the doctor could not tell him what was wrong. The patient had to go out of state to get proper medical care.

One of the worst doctors in the history of medicine -- speaking of Dr. Arthur Taylor (with Nevada Orthopedic & Spine Center).

He gets MINUS-5 stars.

I saw this guy 4 times, and he kept telling me he didn't know what was wrong .

Who does that?

He truly needs to go back to school to and get caught up with modern medicine.

I had to go out of state to get diagnosed and my problem resolved.

I have been in Vegas for over 60 years.

Most of the doctors here are horrible.

They came here from other places because there was a need, but many have done nothing but gotten rich off poor service and lack of knowledge.

Another patient in Las Vegas who had to go out of state to get proper medical care – after he was

unable to get help from Dr. Arthur Taylor (after 4 visits and no help).

**Just say NO to Nevada Orthopedic
and just say NO to Dr. Arthur Taylor**
