

Patient-78

Patient-78 is a veteran who was in a car accident. He was left in the lobby in pain. No vitals were taken. Patient was treated badly and was bleeding and peeing on himself due to the long wait in the lobby.

As a 100% veteran I will never come back here.

Being in a car accident, and it not being my fault.

Having X-rays done and still waiting in the lobby area is crazy.

I made a report with the charge nurse about the nurse watching me, and because of this, I was put outside in the lobby to wait for my medical results.

I'm still in pain! With my chest still hurting. And me still being in pain.

No vitals were taken while being outside.

The treatment is horrible, and I have been bleeding and peeing on myself, waiting.

I will never come back here.
