

# Patient-83

**Patient-83 who was in a room with another patient who soiled his bed and the shower. The shower was never cleaned and had dirty towels and feces. The patient's IV was improperly placed and blew up his arm like a balloon.**

**They did NOT clean the bathroom.**

**A patient that I shared the room with had a problem. He kept wetting his bed and having bowel movements in his bed. They took him to the shower to clean him up.**

**Two days went by, and the shower was never cleaned.**

**Dirty towels and feces were left in the shower.**

Never did I see them wipe down the room and doorknobs.

Trash was left on my tray and was never cleaned or wiped down.

I had no choice because this was a trauma center which I was taken to.

**No one could install a IV.**

**My arm looks horrific. My hand blew up like a balloon.**
