

Patient-88

Patient-88 is another bad hip replacement surgery by Dr. Michael Bradford with Nevada Orthopedic & Spine Center. The device was too long and is very painful. The patient can barely walk, and Dr. Bradford will not help.

Dr. Michael Bradford (with **Nevada Orthopedic** & Spine Center) re-did my hip in September 2023.

He made it way too long and painful.

I can't walk very far and cannot jog at all.

Very painful.

Never use him again.

They don't have the ability to make it right.

This is a stock photo of a man with hip pain.
