DO YOU HAVE ENOUGH LIABILITY COVERAGE?

Your home's value isn't the only thing worth protecting.

- **Liability protects more than your home.**
It can help protect your finances if someone is injured or you're responsible for damage.
- **Liability limits matter.**
Your home's value doesn't determine how much protection you may need.
- **Umbrella coverage adds another layer.**
It can provide additional liability protection above your home and auto policies.
- **Higher limits may be worth considering.**
- **Review liability coverage regularly.**
Life changes, assets grow, and your protection may need to change too.

Worth Knowing

Your biggest asset may not be your home.

Liability coverage helps protect what you've worked to build.

Bottom Line

Protect what you've built.
