NG3 invests in the lives of students at Grayson High School. We teach character development, mobilize students to give back to their community, and mentor them through faith based small groups. Our volunteers are committed to working with parents, teachers and coaches to support and develop these young men and women. NG3 reaches out to the students where they are, being on campus, at practices and games. Other mentoring opportunities take place off campus as well.

NG3 believes that “**Character Changes Communities**”. NG3 has had a great impact in both our students and our community for more than six years. We want to continue to lead the next generation to serve and impact our community in a positive way. The vision is large and we need more people and resources to make it happen.

**Join us for a better Grayson.**
