RELIABLE DURASHIELD SCREEN

AUSTRALIAN MADE

RELIABLE DURASHIELD SCREEN

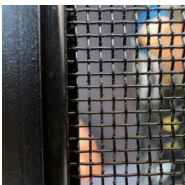

PRODUCT FEATURES

Durashield can be installed as a reveal fit or face fit. The alloy metal mesh is pet-proof, and is extremely tough and durable in outdoor conditions.

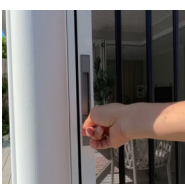

Durashield's bottom track is minimally obstructive, allowing for cars and wheelchairs to run over with ease.

Durashield is perfect for external applications such as garages and patios. Unlike the soft-mesh counterparts, Durashield can be kept opened without the need to close it, making it the perfect solution to enclose a space without blocking out the fresh air.

NOT SECURITY SCREEN

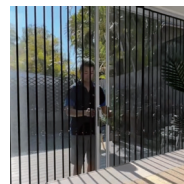

1. Durable petproof alloy metal mesh

2. Comes with a lock and key

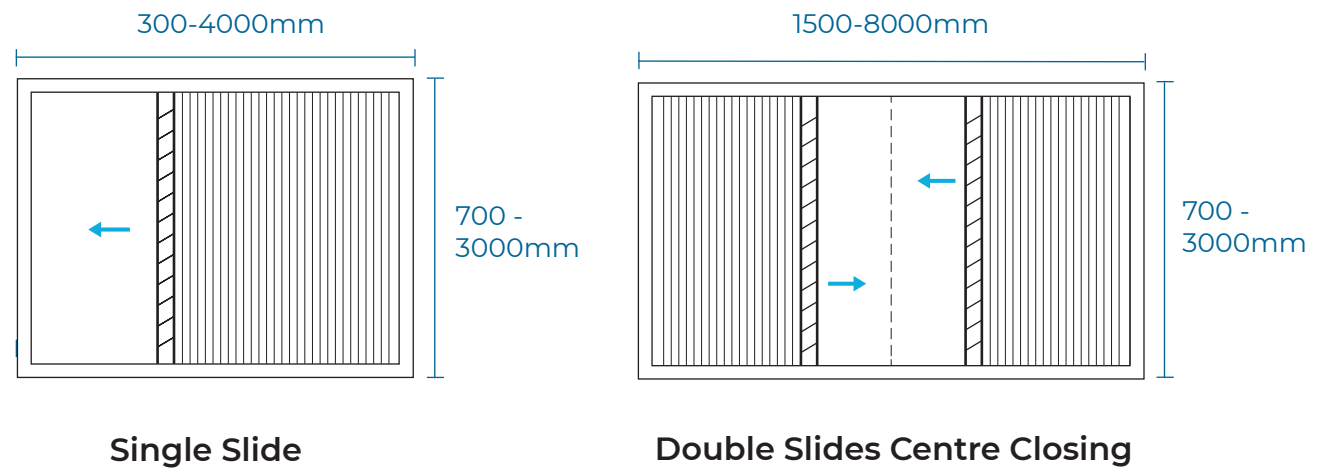

3. Low profile track

4. Easy operation

OPENING CONFIGURATION
