LIFE INSURANCE 101

The need for life insurance depends on each individual life situation. If loved ones are financially dependent on you, then buying life insurance coverage can absolutely be worth it. Even if you don't have financial dependents yet, life insurance can be a valuable solution for making death easier on a family (at least financially.) There are two voluntary life insurance options offered through your employer: Term Life Insurance and Permanent Life Insurance. Below is an overview of the differences.

Term Life and Permanent Life work best used in conjunction with one another. Term Life can protect your family in your younger working years and Permanent Life can protect your family in your retirement years.

TERM LIFE INSURANCE

Term Life insurance is illustrated on the bell curve below. The term life offered is a group policy which allows you to get more benefit for less premium.

- Term life insurance is for the unexpected death
- Includes an Accidental Death & Dismemberment Benefit
- Term life insurance is flexible and allows changes to your benefit amount each year depending on life changes. For example, as you get married and have children the need for term insurance often increases. As you near retirement, the need for term life insurance often decreases.
- Coverage is portable at retirement or if you leave the employer (premium will increase)
- Premiums are based on age and increase as you get older

PERMANENT LIFE INSURANCE

Permanent Life Insurance is illustrated above along the bottom of the graph with a straight blue arrow.

- Permanent life insurance offers a stable premium along the lifetime of the policy
- Permanent life offers a level premium and is meant to take into retirement
- Permanent life is an issue age policy based on the age when the policy is issued
- This is an individual plan you can take with you regardless of where you work

Disclaimer: The *Benefits Guide* is provided for illustrative purposes only and actual benefits and/or premiums may change after printing. Eligibility, benefits, limitations, services, premiums, claims processes and all other features & plan designs are offered and governed exclusively by the insurance provider or vendor contract and associated Summary Plan Description (SPD). All employees should review carrier documents posted on your employer's benefits website or request documents before electing coverage.

VOLUNTARY TERM LIFE & AD&D

What is Voluntary-Term Life and Accidental Death & Dismemberment Insurance? Proceeds can be used to replace lost potential income during working years and help ensure your family's financial goals will still be met; goals like paying off a mortgage, keeping a business running, and paying for college. AD&D coverage is included as a part of life insurance benefits and will pay out a lump-sum death benefit in the event you or a covered loved one are killed accidentally or die later as the direct result of an accident.

Eligibility: Eligible full-time employees as designated by the Board (page 2), spouse, & unmarried children up to age 26

- Coverage through **One America**
- Employee must be actively at work on the effective date
- Benefit amount doubles in the event an accident results in death
- Employee must elect coverage on themselves in order to purchase for dependents
- If electing for the first time outside of the initial open enrollment period or for an amount over the Guaranteed Issue Amount, health questions will be required

Threshold	\$500	Dental benefits received for the year cannot exceed this amount
Rollover Amount	\$250	Dental rollover amount is added to the following year's maximum
Maximum Carryover	\$1,000	Maximum possible accumulation for Dental Rollover

Preventive Advantage

Members have an unlimited preventive care maximum (frequency/age limitations still apply). Members obtain preventive care, including exams, cleanings, x-rays and fluoride treatments, without having the benefit deducted from their annual maximum. Preventive Advantage promotes preventive care to help keep members healthy and productive while extending the value of their annual maximum.

WHY IS HAVING A GOOD VISION PLAN SO IMPORTANT?

Because taking good care of your eyes can help you take better care of your body. Regular visits to your eye care professional do more than just protect your eyesight. They can help protect your overall health. Through a routine exam, eye doctors can spot serious health problems like diabetes, high blood pressure, heart disease, certain cancers and other conditions. That's why, even if you have perfect vision, yearly exams are important. Don't let preventable health and vision problems sneak up on you. Vision benefits are there to help you stay on top of your care.

Frequently Asked Questions

1. How do I know what type of coverage I have now?

If you are not sure what type coverage you currently have, you can call Blue Cross & Blue Shield of Mississippi (BCBSMS) at 1.800.709.7881, or the Office of Insurance at 601.359.3411 or toll-free 1.866.586.2781.

2. How does each type of coverage work?

Under Select Coverage, there is a separate deductible (individual and family) for medical expenses and a separate individual deductible for prescription drugs. Once the appropriate medical deductible is met, you will start paying 20 percent of the allowable charge for covered medical services. Regardless of whether or not you have met your medical deductible, you will have to meet the \$75 individual prescription drug deductible before you start paying a co-payment for a covered drug. Under Select Coverage, there is no prescription drug co-payment maximum, so you will continue to pay the co-payment for your drug each time you have it filled for the remainder of the year.

Under Base Coverage, you will have to meet the full deductible (\$1,800 for individual coverage, \$3,300 for family coverage) before any covered medical or prescription drug charges will be paid by the Plan. This means that you will pay the full allowable charge for both medical and prescription drugs until the deductible is met. Once the deductible is met, you will start paying 20 percent of the allowable charge for covered medical services and a co-payment for covered drugs. There is a \$75 preventive medications individual deductible. Other medications are subject to the calendar year deductible. Once your coinsurance/co-payment maximum is met, the plan will pay 100 percent of the allowable charge for both covered prescription drugs and medical services.

3. What are some of the main differences in Base and Select Coverage?

The premium rates differ for Base and Select Coverage. Another difference between Base and Select Coverage is how the deductibles work. Under Base Coverage, all charges (medical and prescription drug) apply to the calendar year deductible. Under Select Coverage, there is a separate deductible for medical charges and a separate deductible for prescription drug charges.

TERMS & DEFINITIONS

Definitions Disclaimer: The definitions below are for illustrative purposes only. Actual plan definitions are governed exclusively by the provider contract and associated Summary Plan Description (SPD).

Please visit www.georgecountybenefits.com for each plans policy document/certificates and actual benefit definitions.

Age Reduction - A reduction of the face amount of your group insurance policy when you reach a certain age. Please review the age reductions on the Voluntary Term Life Insurance.

Beneficiary - A life insurance beneficiary is the person or entity that will receive the money from your policy's death benefit when you pass away. When you purchase a life insurance policy, you choose the beneficiary of the policy. Please update your beneficiaries as needed for your Voluntary Term Life Insurance and/or Permanent Life Insurance.

Conversion - The option on your term life policies to convert your term life insurance policy into a permanent life insurance policy. Please refer to the plan certificate for detail on converting your term life coverage.

Note: converting your term life policy will change the rate.

Dependents - The definition of eligible dependents vary by insurance carrier. Eligible dependents may include your spouse and taxable dependent children who are under the age of 26. Child marital status will impact benefit eligibility. Please refer to each plans policy document for verification of dependent eligibility.

Elimination Period - A period of consecutive calendar days that you must be out of work before you are eligible to receive benefits. Refer to the Disability page for more details.

Flexible Spending Accounts - An employee benefit which allows you to set aside money from your paycheck, pre-tax, to pay for healthcare and dependent care expenses. There are two types of flexible spending accounts: A Health Care FSA can cover medical, dental or vision expenses that you would otherwise pay for out of pocket. A Dependent Care FSA, also known as a Dependent Care Assistance Program (DCAP), covers employment-related expenses for child care. Please review the Flexible Spending Account pages for additional details.

Guaranteed Issue - A plan's guaranteed issue (GI) is the amount of life insurance available to an employee without having to provide Evidence of Insurability, or EOI/ no health questions. This is particularly helpful if you have health issues which may make you otherwise uninsurable. Many of the benefits offered have GI amounts for new hires. Please review these within your new hire window.

Portability - The portability provision allows you to take coverage with you when you leave your place of employment. The portability rate will differ from current plan rates and are determined by the plan carrier at the time of portability. Portability must be completed with a specific time frame. Please refer to the plans policy certificate for details on portability.

Pre-existing Condition - An illness or injury experienced before enrollment in an insurance plan may be considered a pre-existing condition. Pre-existing conditions can include health issues such as cancer, diabetes, lupus, depression, acne, pregnancy, or just about any other health condition you can imagine. Refer to each plans document for pre-existing condition limitations.

Qualifying Life Event Change - A change in your situation — like getting married, having a baby, or losing benefit coverage — that can make you eligible for a Special Enrollment Period, allowing you to enroll in insurance outside the yearly Open Enrollment Period.

Mississippi State Health - It serves as the state's administrator of health insurance coverage for state employees, teachers, public school employees, retirees, and former employees, and covered dependents. Coverage is through Blue Cross Blue Shield.

Term Insurance VS. Permanent Life Insurance - There are two basic life insurance options offer through your employer: term and permanent. The term life offered is a group policy which allows you to get more benefit for less premium. Permanent lasts your entire lifetime. Term Life and Permanent Life work best when used in conjunction with one another. Term Life can protect your family in your younger working years and Permanent Life can protect your family in your retirement years. Please review the Life Insurance 101 pages for more details.

Voluntary Benefits - Products offered by your employers but paid by employees via payroll deductions. The voluntary benefits within this guide are life insurance, disability insurance, vision insurance, dental insurance, critical illness insurance, cancer insurance, accident insurance, Hospital Indemnity, telemedicine insurance, and legal insurance.

Eligibility, benefits, limitations, services, premiums, claims processes and all other features & plan designs are offered and governed exclusively by the insurance provider or vendor contract and associated Summary Plan Description (SPD).
