FIRST DAY OF SCHOOL JITTERS!!!

- Keep a routine. It is important for parents and students to get back into the school swing of things a few weeks prior to the first day of school.
- Mention school frequently. Begin talking about school and what is necessary to prepare. Be sure to talk about the more enjoyable aspects of school, such as seeing friends, participating in extracurricular activities. Etc.
- Visit the school. If this is the student's first time entering this school, a tour of the school so they can see the layout, its policies, and who will be watching over them.
- Don't be nervous. A parent who is nervous and sad about the first day of school could make their kids nervous. Put on a brave face and keep anxiety hidden until kids have gone.
- Be prepared. Gather supplies, practice the driving route, lay out clothes, get a good night's rest, and set the alarm clock.
- Stay positive, Always keep conversations about school geared toward the positive.
