## SEPTEMBER 2025

### NEWSLETTER

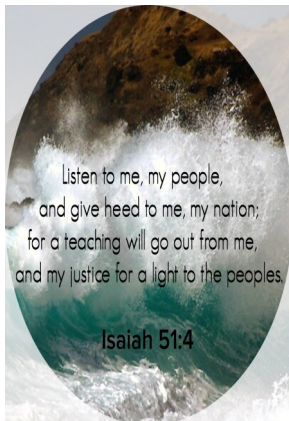

***MONDAY, SEPTEMBER 1, 2025***

Observed the first Monday in September, Labor Day is an annual celebration of the social and economic achievements of American workers. The holiday is rooted in the late nineteenth century, when labor activists pushed for a federal holiday to recognize the many contributions workers have made to America's strength, prosperity, and well-being. Men and woman and even small children were forced to work even when they were sick. Tired and long hours and dangerous conditions, workers began organizing themselves into labor unions. On top of fighting for higher pay and shorter workdays they also fought for the rights of children. Workers unions created the Labor Day holiday to honor those who worked and built the America we know today. Americans celebrated the first Labor Day holiday with a parade, picnics and fireworks. Today, many people hit the road to enjoy the last of their summer vacation. Others enjoy the long weekend with backyard barbecues or just rest and relaxation.
