### **PLANNING**

We create the most immaculate playground amenities and are dedicated to delivering your needs in a timely manner.

Quick Ship
items generally
are shipped within
3-5 days of your order.
Custom structures and
amenities are shipped
in 6-8 weeks of
order.

The majority
of our products
ship via freight.
Replacement parts and
swing components can
ship through USPS or
UPS.

Our products and equipment are packed in crates and delivered to any address via semi truck.

### What to Expect

On the day of your delivery, a semi truck will arrive at your stated drop off zone with all equipment packed into a large crate. 2-3 people will be needed in order to unload the delivery truck safely and securely.

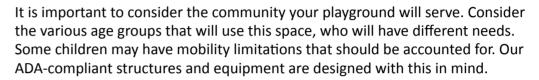

Before your delivery driver departs, inspect all contents for any damages, dents, scrapes, or scratches. You should photograph the crate from all angles and report any damage. Sign the receipt and have the driver sign as well.

Report any damage noted on the delivery receipt to our logistics team. Compare the contents of the crate to the included packing list. Report any damage, discrepancies, or missing items within 72 hours of delivery.

For a complete shipping guide and any further information on our shipping policies and procedures, please visit our website at https://www.playgroundequipment.com/playground-delivery-guide/.

Perhaps the most fundamental aspect of playground planning is having a vision of what it will ultimately look like. While this may seem like a daunting task, our design team is here to help you through every step of the layout and design process.

### 1. Consider Your Community

### 2. Assess Your Location

Examine your space to ensure that you have selected the safest, most efficient location for your playground. Consider hazards such as retention ponds and busy roads, as well as access to amenities like restrooms and parking lots. Call 811 and map out underground waterlines and utilities before digging.

### 3. Determine Your Budget

Consider the size, surfacing, and anticipated installation costs of your future playground. The typical cost breakdown consists of: equipment (55%), installation (25%), surfacing (7%), delivery (8%), and timbers (5%). On our website, you can find a grant and stimulus guide as well as a fundraising guide.

### 4. Design Your Playground

Using satellite imagery of your location, our design team can craft a bird's-eye view of your future playground, as well as a detailed, 3D representation of what your playground will look like from the ground level. These graphics serve to give you a better understanding of how your playground will look after it's installed.

### 5. Install Your Playground

For those with sufficient manpower, customer installation allows your organization to take the reins and install the equipment. For those with volunteers who could use some direction, supervised installations are overseen by one of our certified playground installers. Lastly, we offer professional installation, allowing your equipment to be installed by our team.

## **Elastaplay Poured-In-Place**

PIP-NVB

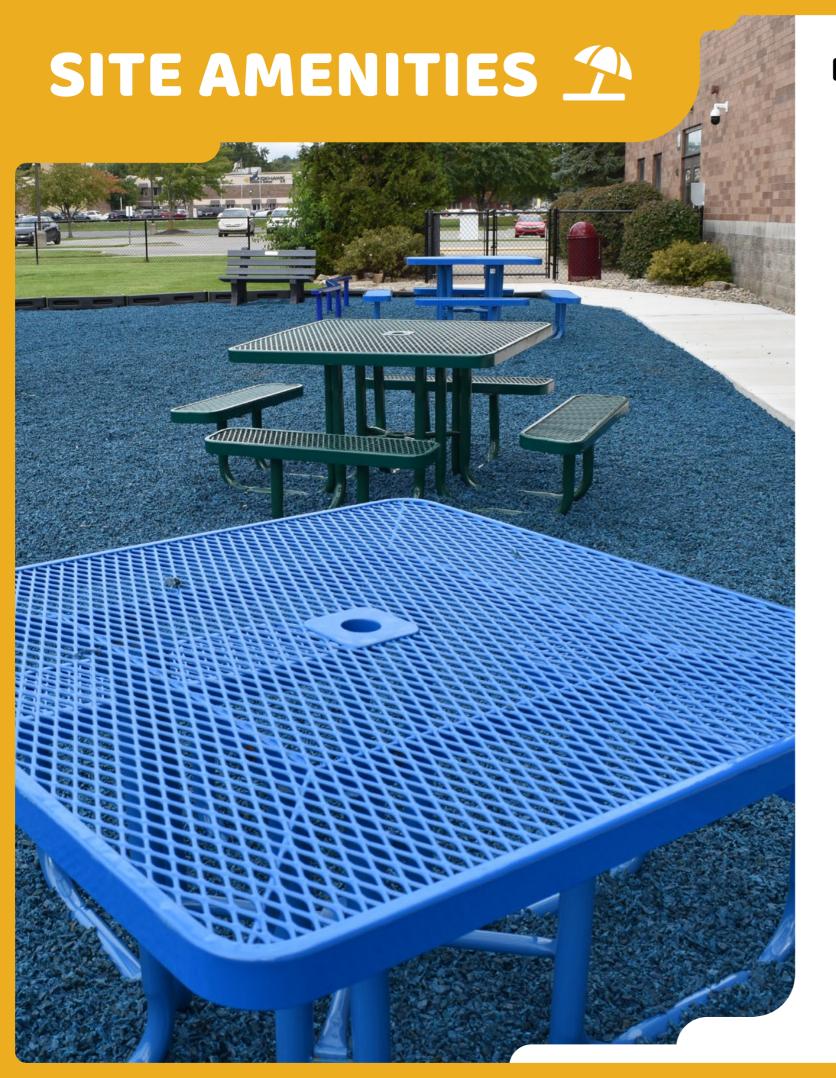

## **Our Most Durable Surfacing Solution**

We're proud to offer a range of industry-standard playground surfacing solutions. Poured-in-place surfacing is designed to improve your playground's visual appeal while helping kids at play avoid injury. By installing poured rubber surfacing onto your playground, you'll be making a valuable investment into the safety of children at play.

## **LOCAL PARTNERS**

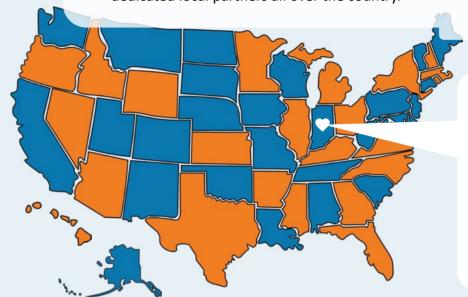

## PlaygroundEquipment.com Warranty

This warranty is for PlaygroundEquipment.com (henceforth referred to as "PE") brand products only. Contact a representative for more information on products not listed under the PE brand. PE warrants its products for as long as customers own and use the product with normal use and installation in accordance with specifications to be defect-free. This warranty does not cover damage from misuse, vandalism, modified parts, or damage (e.g. dents, scratches, fading/weathering, and normal wear and tear). The warranty does not cover costs of freight, labor for removal, or installation of repaired/replaced parts. Replacement parts carry the warranty from the date they are shipped. Repair/replacement orders for warranted products will be for the component part only. Contact your PE distributor for a return authorization.

Warranties are limited to repair or replacement of defective parts. A repaired or replaced part is covered only for the original warranty period. All warranties begin on delivery date of the goods AND only apply to end users who purchase new products directly from PE or an authorized distributor. No other warranties apply.

#### **Thank You Local Partners!** We owe our continued growth to our

dedicated local partners all over the country.

## Why You'll Love Them

## **Community**

Our local partners are members of your community. They will understand your needs and be there to support you throughout the planning and buying process. They have a deep understanding of our products and processes and will be a great resource from start to finish and beyond!

## **Dependability**

We are more than a website. Local partners are real people who can make on-site visits or offer virtual help. They can guarantee faster turnaround and service to meet your specific needs. You can depend on them to be there for you!

#### **Trust**

We trust our local partners to represent us in their communities and they have delivered outstanding customer service. Thanks to our partners, we've done thousands of projects all over the U.S. They are dedicated to building lasting relationships and you can trust them to bring your playground vision to life!

## **COLOR OPTIONS**

Our Color Options provide limitless opportunities to customize your playground, whether you're matching school colors, creating a unique theme, or designing something entirely new. From posts and plastics to handholds, panels, polyethylene, shades, and ropes, nearly every element can be tailored to achieve your perfect look.
