EARLY CHILDHOOD PLAY

REDUCE. REUSE. RECYCLE. **PLAY!**

PLAY INSPIRED BY LAUGHTER

That for every square foot of polylumber used, we, recycle 300 plastic milk jugs, by placing the recycled plastic right back into our polylumber used in our structures.

GO GREEN.

REDUCE. REUSE. RECYCLE.

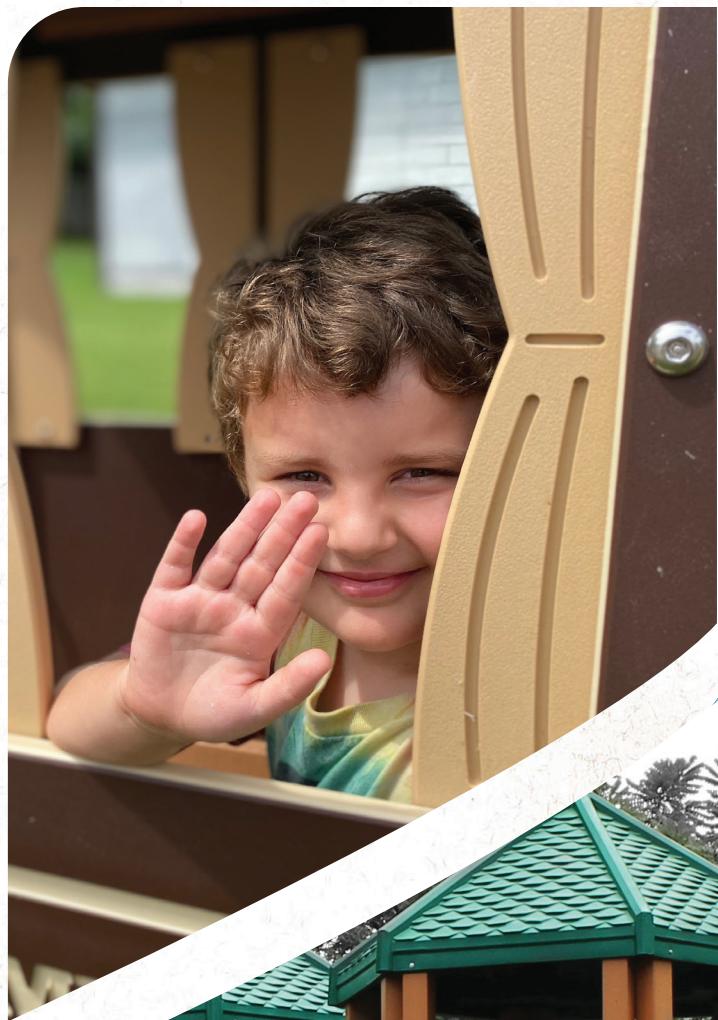

Take a brief moment to look around at the natural world we live in. It's breathtaking and awe-inspiring. We, as inhabitants of this beautiful place we call home, have a duty to take care of it.

While we can do small things to be environmentally conscious, purchasing a playground made from recycled materials is a **HUGE** way **EVERYONE** can contribute to helping the environment

CONSIDER THIS

On average, each Playtopia manufactured play structure contains nearly 25,000 recycled milk Jugs (or 150,000 plastic water bottles)!

At Playtopia, we are proud of the positive impact that every one of our playgrounds has on the environment.

A close-up, slightly blurred photograph of a young child's face, showing their eyes, nose, and mouth. The child has light brown hair and is wearing a light blue shirt with a red collar. The background is a soft, out-of-focus teal color.

SUSTAINABLE

A WORD THAT IS OFTEN USED

In manufacturing, "sustainability" means making products that are designed not only for the current generation, but for future generations. Sustainability also protects the world we live in. We are making a commitment to sustainability by continually incorporating new ideas into creative, eco-friendly products.

At Playtopia, sustainability equals innovation. Manufacturing playgrounds comprised of reclaimed plastics ensures we are doing what we can to protect our environment. Feel confident when you purchase Playtopia products because you are contributing to the preservation of the environment as well.

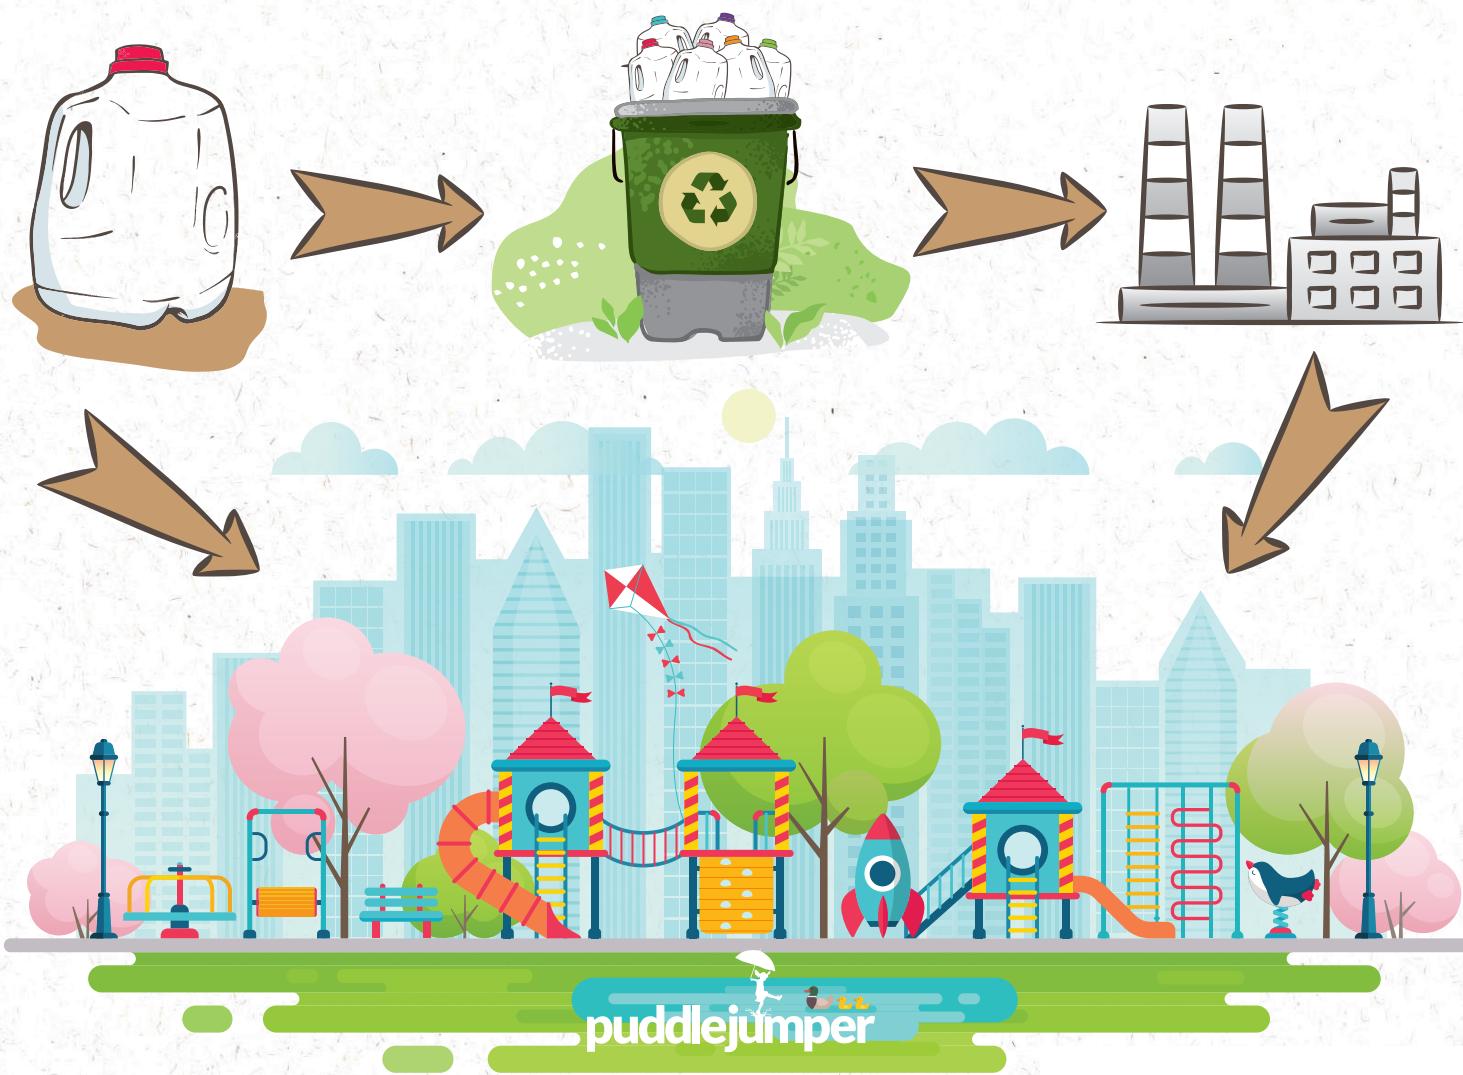

RECYCLE PROCESS:

Bales of milk jugs are unloaded onto conveyors and hand sorted. Anything but milk jugs are removed.

Milk jugs are then ground into plastic flakes. All the ground plastic flakes are washed.

After being washed, all the flakes are extruded into plastic pellets.

The plastic pellets are then extruded into recycled lumber and into your new playgrounds.

CUSTOM SIGNS & INTERACTIVE PANELS

NEW
PRODUCT

If you can imagine it, we can build it. That is why we have decided to launch our very own sign and custom panel division beginning in January of 2022.

Whether it is a sign for your park, business or school, or you are looking for a fun and colorful way to set your playground structure apart, Playtopia has you covered, with our rust-proof, long term sign & custom panel products. Built by aluminum backing and printed & cured with UV ink, your signs and panels will be printed and built to last long term so that you can get the most out of your signs and interactive panels, for years to come.

WARRANTY CERTIFICATE

PLAYTOPIA, INC.

warrants that the equipment sold will conform in kind and quality to the specifications listed in our product specifications documentation and be free of defects in the workmanship or materials.

LIMITED LIFETIME on all Playtopia 6"x6" recycled posts, post caps, and stainless steel hardware against failure due to rust-through corrosion, deterioration, insect infestation, exposure to weather, or workmanship.

15 YEAR LIMITED WARRANTY on all recycled deck platforms, stairs, ramps, bridges, against structural failure due to deterioration defects in materials or workmanship.

10 YEAR LIMITED WARRANTY (only when purchased as part of a complete playground structure) on all polyethylene (panels, slides) and steel (climbers, overheads) against structural failure due to deterioration defects in materials or workmanship. This warrant excludes cosmetic issues arising from use.

2 YEAR LIMITED WARRANTY for structural failure of moving parts, swing seats, and any other product or part not covered by one of the above warranties. This covers rust-through corrosion, defects in materials, or workmanship.

The above warranties do not cover scratches, dents, marring, warping, fading of colors and discoloration due to weathering, or acts of vandalism, and are valid if the structures are erected in conformity with the layout plan and/or installation instructions furnished by the seller; have been maintained and inspected in accordance with the seller's instructions and other normal prudent practices; have been subjected to normal use for the purpose for which the goods were designed; have not been subjected to addition or substitution of parts; and have not been modified, altered, or repaired by persons other than the Seller's designees in any respect which, in the judgement of the Seller, affects the condition or operation of the structures.

All warranties commence on the Seller's invoice.

Should any failure to conform to the above express warranties appear within the applicable warranty period, Seller shall, upon being notified in writing promptly after the discovery of the defect and within the applicable warranty period, correct such non-conformity by issuing new parts. Replacement parts will be warranted for the remainder of the original warranty.

To make a claim, MAIL your written statement of claim, along with digital photos and original invoice
