FULLTEC

Description

Fulltec Top Mix is a 100% biodegradable and multifunctional compatibilizing tank-mix product. Its key at promoting compatibility and stability of products that are difficult to apply thus preventing the formations of crystals and suspended particles which can clog tips, filters, and nozzles.

In water - increases particle solubility, improving the use of products that are difficult to homogenize.

In the tank-mix - by reducing the chances of flocculation during the preparation of the spray mixture, Fulltec Top Mix emulsifies and minimizes problems such as sedimentation of particles or by liquid decantation.

In spraying - allows the use of products that are difficult to apply, in addition to preventing clogging of nozzles, filters and sieves, improving the management performance of your crops.

Directions

| Target | Rates |
|--------------|------------------|
| Preventative | 16-48 oz/100 gal |
| After-mixing | 48-80 oz/100 gal |
