Your Plan's Highlights

Consolidate retirement accounts with a rollover

Savings from your previous qualified retirement plan(s) or a Rollover Individual Retirement Account (IRA) are accepted into the Plan, even if you have not yet met the Plan's age and service requirements. Consolidating retirement accounts can be beneficial to your long-term retirement planning. Access to your savings in one place can save time and make it easier to track your progress. If you ever have a financial need, you will have access to these assets as part of your overall account balance.

To get started, click on the **Consolidate Accounts** tile, once you have logged into your account or in your ADP Mobile Solutions App. You will be guided through each step of the process. You can also utilize the included **Rollover Form**.

For additional information, please visit our Rollover Resource Page

Beneficiary Designation

Naming a beneficiary for your retirement account is important. In the event of your death, your account will be passed to the person(s) you name.

If you are single or married and want to name your spouse as your sole primary beneficiary, you can designate your beneficiary online.

If you are married and want to designate someone other than your spouse or significant other you must print the form available online and follow the instructions to complete it.

You will need the names and birth dates of your beneficiary(ies) and each Social Security Number. If you do not have all of this information, you can always log into your account and add it later.

CONGRATULATIONS ON TAKING THE FIRST STEP TO INVEST IN YOURSELF AND YOUR RETIREMENT. ONCE ENROLLED IN THE PLAN, BE SURE TO TAKE ADVANTAGE OF SEVERAL FEATURES, SUCH AS:

Save Smart®

This is a plan feature that allows you to automatically increase your retirement plan contribution percentage. You can elect a 1%, 2% or 3% increase to your before-tax contribution. The increase will go into effect each year, on the date you choose.

You should evaluate your ability to continue saving in the event of a prolonged market decline, unexpected expenses, or an unforeseeable emergency.

Automatic Account Rebalancing

This is an account tool that allows you to keep your current investment mix (balance by investment fund) consistent with your current investment strategy for new contributions. Once you have made an investment allocation election for new contributions, Automatic Account Rebalancing will rebalance your account based on your preference: quarterly, semi-annually, or annually.

Keep in mind that rebalancing your funds, switching out of an investment, when the market is doing poorly means locking in the loss.
