

A look ahead to what I see coming for 2026 and early 2027

1. Very likely we will continue to see signs in the heavens with a possible Supernova that we have not observed before as well as other space objects that will be approaching Earth. Earthquakes and volcanoes will occur at rates we have never seen before. **Overall, 2025 was a year of significant seismic and volcanic activity**
2. At first I was going to say Iran is going through major changes and the Shiite Muslims will be out of office and the new coalition government will give freedom of worship to the Christians. I was basing this on Jeremiah 49:34-39. But then I looked again and I see Persia is mentioned in Ezekiel 38:5. So now I would have to say the current Uprising in January will be squashed but it may be in 10 to 14 months they will try again and they will succeed.
3. Damascus Syria will be involved in a war this year and will be destroyed.
4. Natural disasters will hit at an accelerated rate again this year. These will trigger famine, compounded by the Famine of War.
5. In the fall of 2026 I expect the beginning of another type of pandemic similar to Covid.
6. Probably between August and November we're going to see a major Fallout in the world Financial markets, especially America's stock market.
7. Besides the stock market there will be bank failures and currency crises in many countries.
8. I believe right after this economic problem you will see a global Jihad where not only will the Islamists attack Israel, but there will be attacks in all of the western Nations that have housed the Islamic immigrants. Initially I expected this Jihad to occur in September or October 2026 but they got to jump on me and started killing Jews on Hanukkah in 2025.
9. In early 2027 there will be a peace treaty between Israel and the Muslim countries.
10. The Jews will rebuild a temple on the Temple mount in Jerusalem.
11. Because of the economic crises you are going to see a one world currency, probably a cryptocurrency and you will have to have a chip in your right hand or on your forehead in order to buy or sell.
12. The number of people that will die in the next 16 months will be approximately 2 billion or 20 times the number that died in World War II.
13. My opinion is that there will be major changes in America such that we are no longer a superpower by the end of 2027. which tells me most likely Trump may get assassinated, impeached or he may just flip and become a supporter of the global Elite. I hate to say this but I think that the American law enforcement is going to have to suppress more and more violent uprisings where we will basically have a form of martial law.
14. I will not be surprised if pre-trib deceivers will figure out how to explain away the Sixth Seal of Revelation 6:12-17, possibly using aliens and AI to mislead people.
