Elk River Health & Nursing Center of Fayetteville

IN PARTNERSHIP WITH

VOHRA WOUND PHYSICIANS

FOR HOSPITAL CASE MANAGERS & DISCHARGE PLANNERS

A Certified Center of Excellence in Wound Management

Your hardest-to-place wound patients have a place to heal. **Elk River of Fayetteville** pairs skilled nursing with physician-led wound care from **Vohra Wound Physicians**, right at the bedside.

0% **wound-related hospitalizations**
Elk River of Fayetteville wound patients, Oct 2025 – Oct 2026

THE OUTCOMES BEHIND THE SEAL

12-month results · Oct 2025 – Oct 2026

30 days
Average time to heal pressure injuries
vs. 39 days predicted — **9 days faster**

31
Pressure injuries fully healed
including 13 Stage 3

48%
Improvement in wound severity (PUSH)
50 wounds · final 3.62 vs. 4.16 national

7 wks
Average time to heal
Vohra national avg: 8 weeks

YOUR DISCHARGE CHALLENGES, ANSWERED

"Will they accept my complex wound patient?"
Yes. Stage 3–4 pressure injuries, DTIs, diabetic and vascular wounds are **managed in-house**.

"Will this patient bounce back to my hospital?"
CoE status requires wound-related hospitalizations **under 1% per quarter**. Elk River of Fayetteville had **zero**.

"Who carries the wound plan after discharge?"
Weekly Vohra physician rounds plus a **Wound Care Certified nurse 7 days a week**.

"Will my patient need wound-clinic trips?"
No transport needed. Sharps debridement, UltraMIST® and MolecuLight® are **delivered on-site**.

ADVANCED WOUND CARE, ON-SITE

Specialist wound care without the wound-clinic trip

- **Physician-performed sharps debridement**, the gold standard, at the bedside
- **UltraMIST® ultrasound therapy** for stalled, hard-to-heal wounds
- **MolecuLight® imaging** to see bacterial load in real time

WHAT THE CENTER OF EXCELLENCE SEAL REQUIRES

Earned yearly — every criterion must be met

- ★ Wound-related hospitalization rate under 1% each quarter
- ★ Wound Care Certified nurse available 7 days a week
- ★ Quarterly QAPI meetings with comprehensive case reviews
- ★ Average of five weekly wound consults for timely intervention

Refer your next wound patient with confidence.
