Sam	P	4	7		2-26-13	Sam is super creative and loves sketching and drawing, listening to music, and hanging out with friends. Sam is also a talented mask-maker.	With Sam's ADHD, they can be sensitive to loud noises or chaotic activity, being called-out in front of the group, or feeling like they're in trouble. Their meds gradually wear off in the evenings, so we will have to see how Sam is copes with the Monday pm rehearsals. When their meds wear off, they can become frustrated easily or struggle to manage emotions. Because they are doing something they LOVE at K2K, I doubt that this will be an issue. But we will monitor and adjust if needed.
