Danika	L	5	11		10-14-09	Danika loves animals, doing crafts, gymnastics, reading and watching movies, playing Roblox. She has sold some of her crafty creations at craft sales. Volunteered at Animal Care Centre, and volunteers in nursery at church. I oversee packing of shoeboxes at my church for Samaritan's Purse, and she is one of my assistants and really enjoys this (she has been doing this since she was really little)	Social anxiety at times. Fear of being left out and not being included (she may perceive that others fit in, and she doesn't, and really takes this to heart) . Has shed some tears. Really trying to work on this. Currently on SAL program for school as was having difficulty attending school in person. She does not open up easily to strangers. There are lots of people praying for her. If she feels supported and loved, I see how much this helps. There was a time when got too old for Sunday school she had anxiety attending church (being around people) except on nursery volunteer days. But I am so happy to say through love and support of people at church, she attends the services, and has been the last 1.5 years (still does not attend the youth group at our church or go to ladies ministry functions with me, but getting to church every week is a Huge step !) I do teen girl devotions with her, and talk with her quite a bit about things. I can explain more about Danika on phone if needed
