## WHAT IS POWER CAMP?

FCA Power Camp is where we take the best attributes of an athletic and spiritual focused camp and combine them into a camp experience like none other. It is a week of fun-filled activities where each camper will choose two different sports to participate in each day. Campers experience an exciting, healthy, athletic environment that allows them to pursue their passion for sport and clearly see and hear Christ's purpose and passion for them.

Athletes will get fundamental training in 2 sports each day. They will receive training in those sports by high school and college coaches along with local athletes. They are also encouraged and equipped in their faith through chapels, guest speakers, and small group time with young adult leaders.
