

Stalwart Safety

Flame Retardant Sleeve with Elastic Both Ends

Application

Welding, Metal Stamping, Steel Mills, Recycling, Automotive Manufacturing, and many other material handling applications requiring spark & flame resistance with cut & heat resistance.

Description

- Flame Retardant Treated Cotton provides spark and flame retardance to upper body.
- Cotton twill will hold up to mild/medium abrasion.
- Elastic both ends keeps sleeve in place protecting the user.
- Comfortable cotton material keeps arms cool.

Product Code: CLFRS

Technical Data

- ANSI CUT LEVEL n/a
- ASTM F2992-15 – n/a
- EN388 Abrasion – 4
- EN388 Cut – 1
- EN388 Tear – 4
- EN388 Puncture – 3

Care Guidelines

Do not dry clean, launder in cold water only using mild detergent, no bleach or oxidizers, do not iron. Do not dry using heat.

Store in dark, cool environment.

Packaging

- 1 EA/Interior Package
- 120 EA/Cartron

Available Sizes

12", 18", 20", 23"
