

Stalwart Safety

Icey Cool Products

Code: ICCTB-90

ICCTB – Grey Cooling Towel

Description: Our *Icey Cool* material features a unique hollow yarn structure which enables these products to decrease temperature from hot to cool in seconds with a quick wetting, wringing and swinging of the towel! The knitted base layer maximizes skin contact for fast sweat wicking, while the top 3D structured is made to increase air flow for quick drying. It also provides UPF 50 protection!

Application: Excellent for Construction, Manufacturing, Sports and any other situation requiring heat stress relief.

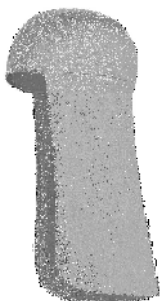

Code: ICCNG

ICCNG – Grey Cooling Neck Gaiter

Description: Our *Icey Cool* material features a unique hollow yarn structure which enables these products to decrease temperature from hot to cool in seconds with a quick wetting, wringing and swinging of the towel! The knitted base layer maximizes skin contact for fast sweat wicking, while the top 3D structured is made to increase air flow for quick drying. It also provides UPF 50 protection!

Application: Excellent for Construction, Manufacturing, Sports and any other situation requiring heat stress relief.

Code: ICCDH

ICCDH – Grey Cooling Drape Hat
