

Stalwart Safety

Stainless Steel Metal Mesh Cut Protective Sleeves

Application

Agricultural applications, Steel Mill applications and Food Processing applications are the main uses for this item, although this item can be used wherever an extremely high level of cut protection is required and cannot be provided by standard cut resistant items.

Description

- Constructed of seamlessly welded stainless-steel metal rings in interlocking mesh pattern
- Tapered fit design with polypropylene wrist with snap closure
- Ambidextrous design allows for interchangeability between hands for prolonged use
- Can be laundered and disinfected after each use

Product Code: MMFPS

Technical Data

- ANSI Cut Level: A9
- Tensile Strength: 125,000 PSI
- Title 21 Code of Federal Regulations EN 1082

Construction

- Shell: Stainless steel welded interlock metal rings, polypropylene wrist strap
- Wrist: Polypropylene wrist strap with snap closure
- Thumb: N/A

Care Guidelines

Clean using hot water and detergent, lay flat to dry on towel. Do not machine wash or tumble dry.

Packaging

- 1 each/polybag
- each/carton
