

RECIPE TEAM

RECIPETREE CAN ASSIST YOUR RECIPE TEAM

RecipeTree experts realize the resources necessary to create quality recipes can be limited. For this reason, RecipeTree recipes include HACCP safety standards, identify therapeutic diets according to the Academy of Nutrition & Dietetics Nutrition Care Manual and assign IDDSI texture modified diet recommendations as a starting point for you to use and/or modify with your team. Expertise comes in many different credentials which often overlap.

Suggested key Recipe Team players include:

CERTIFIED DIETARY MANAGER

Provides leadership and guidance to ensure that food quality, HACCP safety standards and resident expectations are met.

REGISTERED DIETITIAN NUTRITIONIST

Nutrition experts that analyze if recipes, meals and menus support specific therapeutic diets.

CHEF OR CULINARY ARTS EXPERT

Provide culinary direction and vision that embraces resident preferences and cultural diversity.

SPEECH LANGUAGE PATHOLOGIST

Assist with assigning residents the best texture modified diet (IDDSI) to promote safe swallowing.

OTHER

As communities range from single ownership to national chains, the Recipe Team and approach can vary vastly. Some teams may also include:

- Director of Nursing
- Purchasing agent
- Corporate roles

Draft the key players of your Recipe Team and consider using a RecipeTree subscription to assist you!
